

ADAMS COUNTY SNOW PLOWING & ICE CONTROL POLICY

Approved at 4/11/23 County Commission Meeting

RURAL ADAMS COUNTY

**County Roads will be cleared as necessary to prevent a build-up of snow and ice. There will be no large scale salted/sanding.

**Unorganized township roads will be opened when necessary for food, fuel, and livestock supplies. Snow plowing of these roads is secondary to county roads and at the discretion of the Adams County road supervisor.

**Effort will be made to maintain open roads for school buses or US mail deliveries. Adams County is not responsible for snow removal of organized township roads unless contracted to do so.

**Snow removal equipment will be available in cases of extreme emergencies.

** Snow that is removed from areas beyond the county road “right of way” shall not be piled on county road “rights of way.” Violations of this policy will result in removal of snow at the violator’s expense.

**Residents of Adams County are asked to be aware of this policy and prepare themselves accordingly.
