

## Snow Plowing and Removal

### Contractors

First and foremost, thank you all the service that you provide for the community.

Please do continue to provide this service, as many of you for a good number of years. Piling of any snow, into the street to be removed by street crews, from areas beyond the street curb is prohibited. **\*ONLY EXCEPTION IS, downtown businesses may put sidewalk snow in the middle of the street. Provided it is done so before the snow windrow on that street is picked up "NOT\_AFTER."**

Snow removal operations will predominately take place in the early morning hours (2am-7am).

**\*NOT DURING THE STORM OR BLIZZARD\***

Please do continue your contribution to the community. Your cooperation is great appreciated. Thank you.
