**for Performance of Restoration:** The Applicant or Permittee upon receipt of a Street Opening Permit, may be required to provide the Borough, prior to commencing the opening(s) permitted, with an acceptable corporate surety bond to guarantee faithful performance of the work authorized by the permit. The amount of the bond shall be as specified on the approved permit. If the Permittee anticipates requesting more than one (1) permit per year, he/they may furnish one (1) continuing corporate surety bond to guarantee faithful performance in such an amount as may be determined by the Borough Street Department Supervisor. In the case of a Public Utility Company, its corporate bond in a form satisfactory to the Borough may be accepted in lieu of the corporate surety bond required by this section.

**Insurance Requirements:** The Applicant or Permittee, upon receipt of a permit, shall provide the Borough, prior to commencing the opening(s) authorized by the permit, with an acceptable Certificate of Insurance indicating coverage against claims for damages for personal injury as well as against claims for property damage which may arise from or out of the performance of the work. Public Utilities may file an annual Certificate of Insurance in lieu of individual certificates for each permit.
