

CHARLEVOIX COUNTY ROAD COMMISSION

POLICY TITLE: **DAMAGED MAILBOX**

ADOPTED: May 9, 1977

REVISED: January 25, 1999

- 1. A mailbox damaged by snow or ice thrown by a snowplow will not be repaired and/or replaced.**
- 2. Because mailboxes are on county roads by sufferance, the Road Commission will not be responsible for removing snow or ice from areas near mailboxes.**
- 3. The Road Commission will repair or replace a mailbox damaged by contact with one of its snowplows.**
- 4. Replacement mailbox and post shall be standard types carried in inventory by the Road Commission, regardless of type and size of original mailbox.**

The following suggestions may help save your mailbox this winter.

- 1. If you are leaving for the winter, please remove your mailbox and post.**
- 2. If you have an expensive decorative mailbox, please put up an inexpensive mailbox for the winter.**
- 3. Make sure your mailbox and base are securely attached to the post. Place a snowboard if possible on mailbox post. This will help prevent plowed snow from hitting your mailbox.**
- 4. Keep snow and ice cleaned away from your mailbox and post.**
