NEW BUSINESS

Presentation of a utility encroachment policy/permitting for adoption. The documents read as follows:

UTILITY ENCROACHMENT POLICY
CITY OF CHATSWORTH
CHATSWORTH, GEORGIA

All public and private utility companies, as well as private individuals wishing to place any utility within the right-of-way of a city road must apply for and be issued a permit, in writing, by the Public Works Director before any construction begins.

Each application must be in writing and be submitted with a plan or drawing showing the location, beginning and ending points, and any other information that may be relevant to the proposed project.

Permittee will be required to return all disturbed areas to original or better than original condition and will be required to maintain the areas disturbed for a period of (1) one year. This will be inclusive of but not limited to: grassing, filling ditches and washes, making pavement repairs, and other repairs necessary to maintain the disturbed areas in a safe and presentable manner.

All federal, state, and local laws and codes must be followed and if permits are required by entities other than the City of Chatsworth they will be the responsibility of the permittee.

With safety being a primary concern, all permittees must follow all laws pertaining to proper safety while crews are working on right-of-ways, such as signs, flagmen, etc.

Permittee will be required to relocate, at no expense to the City of Chatsworth, any utility placed within a city right-of-way, should the city deem a relocation necessary.

The City of Chatsworth will not be responsible for any damage to any utility located within the city right-of-way. The city will exercise reasonable caution to avoid damage to existing utilities.

Due to varying terrain, road shoulder width, ditch depth, and other unforeseen circumstances it will be necessary to approve or disapprove each application on an individual basis. Approval or disapproval will be at the discretion of the City Public Works Director or his designee.

Applicants must allow fifteen (15) days for the city to consider each application.

The City of Chatsworth reserves the option to require a bond of sufficient amount to insure that projects are completed in a workmanlike manner. Bond amount and bond requirement shall be at the discretion of the city.

PERMIT TO PLACE UTILITIES ON
CITY RIGHT-OF-WAY
CITY OF CHATSWORTH, GEORGIA

Authorization is hereby granted for _____ to construct a utility within the right-of-way boundaries of _____ road.

Upon acceptance of this permit, permittee agrees to abide by all regulations as set forth on utility encroachment policy, attached.
