INDEPENDENT AUDITOR'S REPORT

Honorable Mayor and Members of the City Council City of Flat Rock, Michigan

We have audited the accompanying financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the City of Flat Rock, Michigan, as of and for the year ended June 30, 2008, which collectively comprise the City's basic financial statements as listed in the table of contents. These financial statements are the responsibility of the City of Flat Rock's management. Our responsibility is to express opinions on these financial statements based on our audit.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a text basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and the significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinions.

In our opinion, the financial statements referred to above presents fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the City of Flat Rock, as of June 30, 2008, and the respective changes in financial position and, where applicable, cash flows thereof for the year then ended in conformity with accounting principles generally accepted in the United States of America.

The management's discussion and analysis and budgetary comparison information on pages 2 through 8 and 35 through 46, are not a required part of the basic financial statements but are supplementary information required by accounting principles generally accepted in the United States of America. We have applied certain limited procedures, which consisted principally of inquiries of management regarding the methods of measurement and presentation of the required supplementary information. However, we did not audit the information and express no opinion on it.

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the City of Flat Rock, basic financial statements. The combining and individual nonmajor fund financial statements and other supplementary information are presented for purposes of additional analysis and are not a required part of the basic financial statements. The combining and individual nonmajor fund financial statements and other supplementary information has been subject to the auditing procedures applied in the audit of the basic financial statements and, in our opinion, are fairly stated in all material respects in relation to the basic financial statements taken as a whole.

December 11, 2008

Jochef Associates, Rc

MANAGEMENT'S DISCUSSION AND ANALYSIS

Our discussion and analysis of the City of Flat Rock's financial performance provides an overview of the City's financial activities for the fiscal year ended June 30, 2008. Please read it in conjunction with the City's financial statements.

FINANCIAL HIGHLIGHTS

- The City's net assets decreased by \$153,197 (or 0.7%). The governmental net assets decreased by \$520,726 (or 3.5%) and the business-type net assets increased by \$367,529 (or 4.9%).
- Of the \$22,136,780 reported in net assets, \$19,287,137 is the investment in capital assets net of related debt, \$242,149 is reserved for debt service and capital projects and \$2,607,494 may be used to meet the ongoing obligations to citizens and creditors.
- At the end of the fiscal year, the City's governmental funds reported a combined ending fund balance of \$3,438,812 a decrease of \$112,394 from the previous year.
- At the end of the current fiscal year the fund balance for the General Fund decreased \$1,154,339 to a
 final balance of \$888,051. The decrease was, in part, due to an operating transfer of \$890,000 to the
 recreation center operating fund.

OVERVIEW OF THE FINANCIAL STATEMENTS

This discussion and analysis is an introduction to the City's basic financial statements. The City's basic financial statements are comprised of three components:

- 1. Government-wide financial statements.
- 2. Fund financial statements.
- 3. Notes to the financial statements.

The financial statement's focus is on both the City as a whole (government-wide) and on the major individual funds. Both perspectives (government-wide and major fund) allow users to address relevant questions, broaden a basis for comparison (interperiod or intergovernmental) and enhance the City's accountability. This report also contains supplementary information in addition to the basic financial statements which further explains and supports the information presented in these statements.

GOVERNMENT-WIDE FINANCIAL STATEMENTS

The government-wide financial statements are designed to provide readers with a broad overview of the City's finances. The Statement of Net Assets and the Statement of Activities are designed to be corporate-like in that all the governmental and business-type activities are consolidated into columns which add to a total for the Primary Government. These statements should help the reader to answer the question: Is the City, as a whole, better off or worse off as a result of this year's activities. These statements include all non-fiduciary assets and liabilities using the accrual basis of accounting. The current year's revenues and expenses are recognized regardless of when cash is received or paid.

MANAGEMENT'S DISCUSSION AND ANALYSIS (Continued)

The focus of the Statement of Net Assets is designed to be similar to the bottom line results for the City and its governmental and business-type activities. This statement combines and consolidates governmental funds' current financial resources (short-term spendable resources) with capital assets and long-term obligations (total economic resources). This statement presents all of the City's assets and liabilities, with the difference between the two reported as "net assets." Over time, increases and decreases in net assets may indicate whether the City's financial position is improving or deteriorating. However, in order to assess the overall health of the City, non-financial factors such as the City's property tax base and condition of the City's infrastructure may also need to be considered.

The Statement of Activities is focused on both the gross and net cost of the various activities (governmental, business-type, and component unit) which are supported by the City's general tax and other revenues. This presentation is intended to summarize and simplify the user's analysis of the cost of the various governmental services and/or the subsidy to various business-type activities and/or component units. This statement shows how the City's net assets changed during the fiscal year. All changes in net assets are reported when the underlying events occur, regardless of the timing of related cash flows. Therefore, revenues and expenses are reported in these statements for some items that will only result in cash flows in future fiscal periods (e.g., uncollected taxes and earned but unused vacation leave).

Both statements report two activities:

- Governmental Activities: Most of the City's basic services (i.e., police, fire, public works, parks, etc)
 are reported under this category. Taxes and intergovernmental revenues generally fund these services.
 The City's governmental activities include general government, police, fire, building and safety, public works, recreation and culture, library, community enrichment and development, road maintenance and repair and tax refund.
- 2. Business-type Activities: The City charges fees to customers to help cover all or most of the cost of certain services it provides. The City operates one business-type activity that reflects private sector type operations: Water and Sewer service.

FUND FINANCIAL STATEMENTS

Traditional users of governmental financial statements will find the fund financial statements presentation more familiar. These statements provide more detailed information about the City's most significant funds (Major Funds), not the city as a whole. A fund is a fiscal and accounting entity with a self-balancing set of accounts that the City uses to maintain control over resources that have been segregated for specific activities or objectives. In addition to major funds, the City presents individual fund data for non-major funds in the supplementary information section. All of the funds of the City can be divided in three categories: governmental, proprietary, and fiduciary. Each category uses different accounting approaches.

Governmental Funds:

Governmental funds are used to account for essentially the same functions reported as governmental activities in the government-wide financial statements. However, the governmental fund statements are presented on a modified accrual basis, which focuses on the near-term sources and use of available resources. This is the manner in which the budget is typically developed. The City establishes Funds for various purposes, and the Fund Financial Statements allow the demonstration of sources and uses and/or budgetary compliance associated therewith. Governmental Funds include the General Fund, special revenue funds, capital project funds, and debt service funds.

The focus of governmental funds (current financial resources) is narrower than that of the government-wide financial statements (total economic resources). Therefore, the reader may better understand the long-term impact of the City's near-term financing decision by comparing information presented for governmental funds with the information presented for the governmental activities in the government-wide financial statements. Both the governmental funds Balance Sheet and Statement of Revenues, Expenditures, and Changes in Fund Balance provide a reconciliation to facilitate this comparison.

MANAGEMENT'S DISCUSSION AND ANALYSIS (continued)

Proprietary funds are used to account for services provided by the City where the City charges customers (whether external or internal) for the services it provides. These funds use accrual accounting; the same method used by private sector businesses. The City maintains one type of proprietary fund. The enterprise fund is used to report the same functions presented as business-type activities in the government-wide financial statements. The City uses enterprise funds to account for its Water and Sewer service.

Fiduciary Funds:

Fiduciary funds are used to account for resources held for the benefit of parties outside the government. While these funds represent trust responsibilities of the City, these assets are restricted in purpose and do not represent discretionary assets of the City. Therefore, these assets are not reflected in the government-wide financial statements. The City acts as a trustee or fiduciary for its employee deferred compensation plan. It is a trustee/agent for the other governmental units for which it collects tax payments. The City is responsible for ensuring that the assets reported in these funds are used for their intended purpose. The City's fiduciary activities are reported in separate Statements of Fiduciary Net Assets. These funds are reported using accrual accounting.

NOTES TO BASIC FINANCIAL STATEMENTS

The notes provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements.

ADDITIONAL REQUIRED SUPPLEMENTARY INFORMATION

Following the basic financial statements is additional required supplementary information that further explains and supports the information in the financial statements. The required supplementary information includes budgetary comparison schedules.

NON-MAJOR GOVERNMENTAL FUNDS

Following the required supplementary information is combining financial statements for non-major governmental funds. These funds are added together and presented in a single column in the basic financial statements, but are not reported individually, as with major funds, on the governmental fund financial statements.

FINANCIAL ANALYSIS OF THE GOVERNMENT AS A WHOLE

As noted earlier, net assets may serve over time as a useful indicator of a government's financial position. In the City's case, assets exceeded its liabilities at the end of the fiscal year by \$22,136,780. However, 87% of the City's net assets represent its investment in capital assets (e.g., land, roads, storm sewers, water and sewer systems, building, and equipment) less any related debt used to acquire or construct these assets that is still outstanding. The City uses these capital assets to provide essential services to citizens; therefore, these assets are not available for future spending. Although the City's investment in its capital assets is reported net of related debt, it should be noted that resources needed to repay this debt must be provided from other sources because the capital assets themselves cannot be used to liquidate these liabilities.

CITY OF FLAT ROCK'S CHANGE IN NET ASSETS (continued)

	Governmental <u>Activities</u>	Business-Type Activities	<u>Total</u>
Changes in Net Assets	(520,726)	367,529	(153,197)
Net Assets, July 1, 2007	14,790,037	7,499,940	22,289,977
Net Assets, June 30, 2008	\$ <u>14,269,311</u>	\$ <u>7,867,469</u>	\$22,136,780

Governmental Activities:

Governmental activities decreased the City's net assets by \$520,726.

Business-Type Activities:

Business-type activities increased the City's net assets by \$367,529. Key factors of this increase are as follows:

• Operating revenues increased by 0.6% and operating expenses decreased by 11.6% during the year.

General Fund

The General Fund is the chief operating fund of the City. At the end of the current fiscal year, unreserved fund balance was \$760,223 and reserved fund balance was \$127,828. Total fund balance decreased by \$1,154,339 during the fiscal year.

Tax Increment Finance Authority

The Tax Increment Finance Authority has fund balance of \$276,962.

Recreation Center Operating Fund

The Recreation Center Operating Fund has a fund balance of \$2,142.

Other Governmental Funds

Other Governmental Funds had the following fund balances:

Special Revenue Funds\$2,029,508Debt Service Funds\$ 30,686Capital Projects Funds\$ 211,463

FINANCIAL ANALYSIS OF THE GOVERNMENT AS A WHOLE (continued)

CAPITAL ASSETS AND DEBT ADMINISTRATION

Capital Assets:

The City investment in capital assets for its governmental and business-type activities as of June 30, 2008 amounts to \$41,462,297 (net of accumulated depreciation). This investment includes a broad range of capital assets, which are detailed in the table below. The total decrease in the City's net investment in capital assets for the current fiscal year was \$1,921,315. The following table is a comparison of the City's net capital assets as of June 30, 2008 compared to June 30, 2007:

NET CAPITAL ASSETS AT YEAR END (in thousands of dollars)

	Governmental Activities		Business-Ty	pe Activities	Total Primary Government		
	<u>2007</u>	<u>2008</u>	<u>2007</u>	2008	2007	2008	
Capital assets not depreciated:							
Land	\$ 1,213	\$ 1,213	\$ -	\$ -	\$ 1,213	\$ 1,213	
Capital assets being depreciated:							
Infrastructure	7,691	6,989	-	-	7,691	6,989	
Buildings	19,156	18,706	5,258	5,145	24,414	23,851	
Machinery and equipment	1,843	1,613	182	171	2,025	1,784	
Water sewer and mains	-	-	7,781	7,452	7,781	7,452	
Vehicles	231	151	. 29	23	<u>260</u>	<u> 174</u>	
Net capital assets	\$ <u>30,134</u>	\$ <u>28,672</u>	\$ <u>13,250</u>	\$ <u>12,791</u>	\$ <u>43,384</u>	\$ <u>41,463</u>	

Additional information regarding the City's capital assets can be located in the Note 4 of the notes to basic financial statements.

Long-Term Debt:

At the end of the fiscal year, the City had total long-term bonds and notes outstanding of \$24,383,006.

OUTSTANDING DEBT AT YEAR END

	Governmental Activities	Business-Type Activities	Total Primary Government
General obligation bonds (backed by the City)	\$17,495,000	\$5,184,818	\$22,679,818
Equipment Loans	52,052 \$17,547,052	\$ <u>5,184,818</u>	52,052 \$22,731,870

State statutes limit the amount of general obligation debt the City can issue to 10% of its total state equalized assessed value of property. The City's total general obligation debt (\$22,731,870) is significantly lower than the current state-imposed limit of \$56,912,602.

ECONOMIC CONDITION AND OUTLOOK

The City of Flat Rock's budget for 2008 is not recommending any change to the millage rate. The water and sewer rates are \$5.00 residential and \$6.50 for commercial and \$6.75 for industrial per thousand gallons.

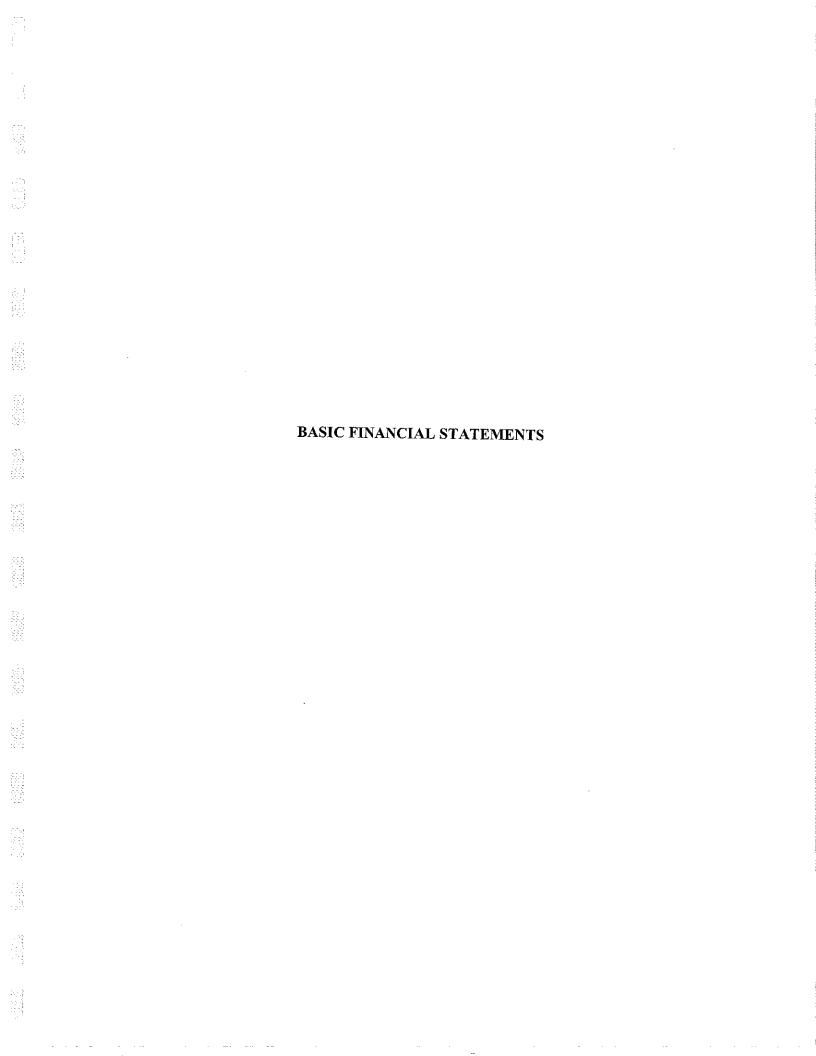

The City's revenue consists of 72.4% tax revenues, 19.3% local sources and 8.3% from other sources. The City's tax base had a decrease of \$450,000. Local revenues are projected to decrease by \$65,000 for the fiscal year ended June 30, 2008. State revenue sharing should remain consistent with last year, barring any additional changes in the distribution formula used by the State.

The City's general fund expenditures are allocated 48.3% to public safety, police, fire, and building and safety. The department of public services amounts to 27.0% and the clerk and treasurer departments total 16.7% and other departments total 8.0%. In addition, it is recommended that there should be a decrease in expenditures over the previous year's budget of approximately \$600,000. The general fund is projecting fund balance increase of \$31,756.

CONTACTING THE CITY'S FINANCIAL MANAGEMENT

This financial report is designed to provide our citizens, taxpayers, customers, investors and creditors with a general overview of the City's finances and to show the City's accountability for the money it receives. Questions regarding any information provided in this report or request for additional financial information should be addressed to the following:

NOTE -1- SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES:

The financial statements of the City of Flat Rock, Michigan (the "City") conform to accounting principles generally accepted in the United States of America (GAAP) as applicable to governmental units. The following is a summary of the significant accounting policies used by the City of Flat Rock.

REPORTING ENTITY – The City was formed as a home rule city in 1965. The City is governed by a Mayor and Council. The Mayor is the chief administrative and executive office of the City and is elected at large for a two-year term in a non-partisan election and has voting power. The Council consists of six members who are also elected at large for four-year terms, in a non-partisan election. The reporting entities included in these financial statements are the City of Flat Rock, Michigan, the primary government, the Tax Increment Finance Authority, the Downtown Development Authority, and the City of Flat Rock Building Authority, the component units.

The basic criterion for including a potential component unit in the reporting entity is the governing body's ability to exercise oversight responsibility. Oversight responsibility includes the primary government being financially accountable for the potential component unit. Other oversight responsibilities include, but are not limited to, the selection of the governing authority, the designation of management, the ability to approve or modify the budget, the ability to significantly influence operations and accountability for fiscal matters. The other criterion used to evaluate potential component units for inclusion or exclusion from the reporting entity is the existence of special financing relationships, regardless of whether the City is able to exercise oversight responsibilities.

<u>BLENDED COMPONENT UNITS</u> - These types of component units are reported as though they were part of the primary government, using the blended method.

The Tax Increment Finance Authority (TIFA) was created on April 15, 1985. The intended purpose is to bolster the declining value of the lands located within the district. TIFA has a targeted development area which will be developed and ultimately lead to increasing the values of the properties located within the targeted area. Funding for TIFA is provided by capturing the increased property tax revenues from the increase in assessed valuations of the benefited properties.

The Downtown Development Authority (DDA) was created on April 18, 1988. The intended purpose is to implement improvements to public facilities within the development area to comply with barrier free design requirements and to develop and implement long-range plans designed to halt the deterioration of the property values in the Downtown District. Funding for DDA is provided from the increased property tax revenues from any benefited property.

The City of Flat Rock Building Authority (BA) was created on August 5, 1996. The intended purpose is the acquisition, furnishing, equipping, owning, improving, enlarging, operating and maintaining a building or buildings, automobile parking lots or structures, recreational facilities, stadiums and the necessary site or sites thereof, together with appurtenant properties and facilities necessary or convenient use thereof, for use for any legitimate public purposes of the City.

Separate financial statements of TIFA, DDA and BA may be obtained from the City offices.

MAJOR TAXPAYER - Approximately 43 percent of property tax revenue is from one Company located in the City of Flat Rock, and 30 percent of water, sewer and industrial charge revenue are from the same company.

GOVERNMENT-WIDE AND FUND FINANCIAL STATEMENTS - The government-wide financial statements (i.e., the statement of net assets and the statement of changes in net assets) report information on all of the nonfiduciary activities of the primary government and its component units. For the most part, the effect of interfund activity has been removed from these statements. Governmental activities, normally supported by taxes and intergovernmental revenues, are reported separately from business-type activities which rely to a significant extent on fees and charges for support. Likewise, the primary government is reported separately from certain legally separate component units for which the primary government is financially accountable.

The statement of activities demonstrates the degree to which the direct expenses of a given function or segment are offset by program revenues. Direct expenses are those that are clearly identifiable with a specific function or segment. Program revenues include: (1) charges to customers or applicants who purchase, use, or directly benefit from goods, services, or privileges provided by a given function or segment; and (2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function or segment. Taxes and other items not properly included among program revenues are reported instead as general revenue.

Separate financial statements are provided for governmental funds, proprietary funds and fiduciary funds, even though the latter are excluded from the government-wide financial statements. Major individual governmental funds are reported as separate columns in the fund financial statements.

NOTE -1- SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES: (continued)

MEASUREMENT FOCUS, BASIS OF ACCOUNTING, AND FINANCIAL STATEMENT PRESENTATION – The government-wide financial statements are reported using the economic resources measurement focus and the accrual basis of accounting, as are the proprietary fund and fiduciary fund financial statements. Revenue is recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Property taxes are recognized as revenue in the year for which they are levied. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

Governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Revenue is recognized as soon as it is both measurable and available. Revenue is considered to be available if it is collected within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the government considers revenues to be available if they are collected within 60 days of the end of the current fiscal year. Expenditures are recorded when the related fund liability is incurred, except for general obligation bond principal and interest which are reported as expenditures in the year due.

Major revenue sources susceptible to accrual include: sales and use taxes, property taxes, intergovernmental revenues, and investment income.

Operating income reported in proprietary fund financial statements includes revenues and expenses related to the primary, continuing operations of the fund. Principal operating revenues for proprietary funds are charges to customers for sales or services. Principal operating expenses are the costs of providing goods or services and include administrative expenses and depreciation of capital assets. Other revenues and expenses are classified as non-operating in the financial statements.

FUND TYPES AND MAJOR FUNDS

The City reports the following major governmental funds:

<u>General Fund</u> – The General Fund is the general operating fund of the City. It is used to account for all financial resources except those required to be accounted for in another fund.

Tax Increment Finance Authority (TIFA) - TIFA is a special revenue fund used to develop and increase the value of properties located within the targeted area.

<u>Downtown Development Authority (DDA)</u> – DDA is a special revenue fund created to prevent deterioration, encourage historical preservation and promote economic growth within the downtown district.

In addition the City reports on the following fund types:

<u>Special Revenue Funds</u> – The Special Revenue Funds are used to account for the proceeds of specific revenue sources (other than expendable trusts or major capital projects) that are legally restricted to expenditures for specified purposes.

<u>Debt Service Funds</u> - Debt Service Funds are used to account for the annual payment of principal, interest and expenses in connection with certain long-term debt other than debt payable from the operation of an enterprise fund.

<u>Capital Projects Funds</u> - Capital Projects Funds are used to account for financial resources to be used for the acquisition or construction of major capital facilities (other than those financed by Proprietary Funds and Trust Funds).

PROPRIETARY FUND:

<u>Water and Sewer Fund</u> - The Water and Sewer Fund is an Enterprise Fund. The City operates one Enterprise Fund, which accounts for the operation of the Water and Sewer Systems. The fund is financed and operated in a manner similar to a private enterprise. The intent is that costs (expenses, including depreciation) of providing water and sewer services to the general public are recovered though user charges. The fund uses full accrual accounting based on Generally Accepted Accounting Principals (GAAP) and follows accounting and financial activities prescribed by the Financial Accounting and Standards Board (FASB) as long as it does not conflict with the Governmental Accounting Standards Board (GASB) guidance.

FIDUCIARY FUNDS:

Agency Funds - Agency Funds are used to account for assets held by the City in a trustee capacity or as an agent for individuals, organizations, other governments or other funds. Agency Funds are custodial in nature (assets equal liabilities) and do not involve measurement of results of operations.

NOTE -1- SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES: (continued)

ASSETS, LIABILITIES, AND NET ASSETS OR EQUITY

Bank Deposits and Investments – Cash and cash equivalents are considered to be cash on hand, demand deposits, and short-term investments with a maturity of three months or less when acquired.

Receivables and Payables – In general, outstanding balances between funds are reported as "due to/from other funds." Activity between funds that is representative of lending/borrowing arrangements outstanding at the end of the fiscal year is referred to as "advances to/from other funds." Any residual balances outstanding between the governmental activities and the business-type activities are reported in the government-wide financial statements as "internal balances." Any residual balances outstanding between the governmental and business-type activities with fiduciary funds are reported in the government-wide financial statements as "external balances."

<u>Inventories and Prepaid Items</u> – Inventories are valued at cost, on a first-in, first-out basis. Inventories of governmental funds are recorded as expenditures when consumed rather than when purchased. Certain payments to vendors reflect costs applicable to future fiscal years and are recorded as prepaid items in both government-wide and fund financial statements.

<u>Capital Assets</u> – Capital assets, which include property, plant, equipment, infrastructure assets (e.g., roads, bridges, sidewalks, and similar items) are reported in the applicable governmental or business-type activities column in the government-wide financial statements. Capital assets are defined by the government as assets with an initial individual cost of more than \$1,000 and an estimated useful life in excess of two years. Such assets are recorded at historical cost or estimated historical cost if purchased or constructed. Donated capital assets are recorded at estimated fair market value at the date of donation.

Property, plant and equipment is depreciated using the straight-line method over the following useful lives:

Buildings	50 years
Equipment and Meters	10 to 30 years
Vehicles	5 to 12 years
Water and Sewer Mains	50 years
Roads and infrastructure	10 to 30 years

Compensated Absences (Vacation and Sick Leave) – It is the government's policy to permit employees to accumulate earned but unused sick and vacation pay benefits. There is no liability for unpaid accumulated sick leave since the government does not have a policy to pay any amounts when employees separate from service with the government. All vacation pay is accrued when incurred in the government-wide, proprietary and fiduciary fund financial statements. A liability for these amounts is reported in governmental funds only for employee terminations as of year-end

Long-Term Obligations – In the government-wide financial statements and the proprietary fund types in the fund financial statements, long-term debt and other long-term obligations are reported as liabilities in the applicable governmental activities, business-type activities, or proprietary fund type statement of net assets. Bond premiums and discounts, as well as issuance costs, are deferred and amortized over the term of the bonds using the interest method. Bonds payable are reported net of the applicable bond premium or discount. Bond issuance costs are reported as deferred charges and amortized over the term of the related debt. In the fund financial statements, governmental fund types recognize bond premiums and discounts, as well as bond issuance costs during the current period. The face amount of debt issued is reported as other financing sources. Premiums received on debt issuance are reported as other financing sources while discounts are reported as other financing uses. Issuance costs are reported as debt service expenditures.

<u>Property Taxes</u> - All trade and property tax receivables are shown net of allowance for uncollectible amounts. Property taxes attach as an enforceable lien on property as of December 31 each year. City taxes are levied and immediately due the following July 1 with final collection date August 31 without penalty. Taxes unpaid after August 31 are subject to interest, penalties and collection fees. Wayne County, Michigan (the "County") is responsible for the collection of real property taxes of the City which are delinquent as of March 1 of each fiscal year. The County purchases from the City all delinquent real property taxes from a tax payment fund established by the County. In return, the City has assigned to the County all amounts payable to the City from the taxpayers with respect to such delinquent real property taxes.

<u>Fund Equity</u> – In the fund financial statements, governmental funds report reservations of fund balance for amounts that are not available for appropriation or are legally restricted by outside parties for use for a specific purpose. Designations of fund balance represent tentative management plans that are subject to change.

<u>Use of Estimates</u> – The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make significant estimates and assumptions that affect the reported amounts of assets and liabilities and disclosures of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenue and expenses during the reported period. Actual results could differ from those estimates.

NOTE -2-STEWARDSHIP, COMPLIANCE, AND ACCOUNTABILTIY:

Budgetary Information - Budgets are adopted on the modified accrual basis consistent with generally accepted accounting principles except that operating transfers are reported as revenue and expenditures. Annual appropriated budgets are adopted for the General, Special Revenue, Capital Project Funds and the following Debt Service Funds - Aspen Drive, Building Authority, Transportation Bond General Obligation, Building Authority Ball and Ice, Huron Woods Series A Retirement, Huron Woods Series B Retirement, and Seneca Sewer and Water Fund. Annual budgets lapse at year-end.

The level of budgetary control (the level at which expenditures may not legally exceed appropriations) is at the department (activity) level for the General Fund and the activity level for Special Revenue and Debt Service Funds.

The governing body must approve budget amendments at the activity level and supplemental appropriation, which affect total fund expenditures.

Excess of Expenditures Over Appropriations in Budgeted Funds - During the year ended June 30, 2008, the City incurred expenditures in certain non major budgetary funds, which were in excess of amounts budgeted, as follows:

			Actual
			Over
	Budget	<u>Actual</u>	Budget
Major Street Fund	\$ 415,561	\$ 485,567	\$ (67,006)
Local Street Fund	\$ 480,201	\$ 625,618	\$(145,417)
Historical District Fund	\$ 7,620	\$ 106,295	\$(98,675)

The City's appropriation resolution is generally passed proceeding the fiscal year in which the planned expenditures relate. Subsequent amendments are made to avoid unfavorable variances from the original budget. Related resolutions are made to state the purpose and amount of the changes. The City Manager has the responsibility to enforce the budget. Unused appropriations do not carry forward to the next fiscal year.

Compliance with the Single Audit Act Amendments of 2003 – After examination by the auditors, a compilation audit in accordance with the Single Audit Act was not necessary since the City did meet the threshold requirement.

NOTE -3- CASH AND CASH EQUIVALENTS:

As of June 30, 2008, the carrying value of cash and cash equivalent (consisting of checking accounts, savings accounts, and money market accounts) was \$3,869,399 and the bank balance was \$5,571,006. Of the bank balance, \$109,059 was covered by federal depository insurance and \$5,461,947 was uninsured and uncollateralized.

NOTE -4- CAPITAL ASSETS:

Capital asset activity of the primary government for the current year was as follows:

Governmental Activities Capital Assets Not Being Depreciated	Beginning Balance	<u>Increases</u>	Decreases	Ending Balance
Land	\$ <u>1,213,229</u>	\$	\$ -	\$ <u>1,213,229</u>

NOTE -4- CAPITAL ASSETS: (continued)

Depreciation expense was charged to programs of the primary government as follows:

Governmental Activities	
Road Maintenance and Repair	\$ 797,382
Recreational Culture	432,416
Public Works	90,081
Police	78,298
Library	48,846
Fire	73,746
General Government	25,638
Building and Safety	10,534
Total Governmental Activities	\$ <u>1,556,941</u>
Business - Type Activities	
Water and Sewer Mains	\$ 328,568
Buildings	113,673
Equipment and meters	10,357
Equipment and meters	10,00,
Vehicles	6,536

NOTE -5- EXPLANATION OF DIFFERENCES BETWEEN GOVERNMENTAL FUND BALANCE SHEET AND THE STATEMENT OF NET ASSETS:

"Total fund balances" of the City's governmental funds \$3,438,312 on the Governmental Funds Balance Sheet differs from "net assets" of governmental activities by \$10,830,499 as reported in the statement of net assets. The difference primarily results from the long-term economic focus of the statement of net assets versus the current resources focus of the governmental fund balance sheets. The following is a description of each difference found on the reconciliation of governmental funds balance sheet and statement of net assets:

 When capital assets (land, buildings and equipment) that are to be used in governmental activities are purchased or constructed, the cost of those assets are reported as expenditures in governmental funds. However the statement of net assets includes those assets among the assets of the City as a whole.

Cost of capital assets	\$ 50,342,260
Accumulated depreciation	(21,670,579)
	\$ 28.671.681

- 2. Long-term liabilities applicable to the City's governmental activities are not due and payable in the current period and accordingly are not reported as fund liabilities. All liabilities, both current and long-term, are reported in the statement of net assets. The balance of long-term liabilities as of June 30, 2008 is \$17,547,052 and is recognized as a liability on the statement of net assets but not on the governmental funds balance sheet. In addition, unamortized bond cost of \$556,710 is recognized as a non-current asset on the statement of net assets but not on the governmental funds balance sheet.
- 3. The City provides employees with sick and vacation leave, which can be accumulated and redeemed for compensation at retirement. This leave is referred to as accumulated compensated absences. Leave not used within at the end of the fiscal year is not payable from current resources and is not recognized on the governmental funds balance sheet. The amount of \$850,840 is recognized as a long-term liability on the statement of net assets. The amount payable by fund is as follows:

NOTE -5- EXPLANATION OF DIFFERENCES BETWEEN GOVERNMENTAL FUND BALANCE SHEET AND THE STATEMENT OF NET ASSETS: (continued)

Police	\$485,101
Public works	147,187
Fire	90,031
General government	46,729
Building and safety	25,030
Recreation	45,601
Library	<u>11,161</u>
	\$ <u>850,840</u>

NOTE -6- EXPLANATION OF DIFFERENCES BETWEEN GOVERNMENTAL FUND OPERATING STATEMENTS AND STATEMENT OF ACTIVITIES:

The "net change in fund balances" for governmental funds of \$(112,394) on the Statement of Revenues, Expenditures and Changes in Fund Balance differs from the "change in net assets" for governmental activities by \$(408,332) as reported in the Statement of Activities. The difference arise primarily from the long-term economic focus of the statement of activities versus the current financial resources focus of the governmental funds. The following is a description of each difference found on the reconciliation of statement of revenues, expenditures and changes in fund balance to the statement of activities:

1. Capital outlays and construction costs are reported as expenditures in the statement of revenues, expenditures and changes in fund balance. The costs of these outlays are spread over the estimated useful lives of the assets (depreciation) in the statement of activities. The difference is illustrated below:

Capital outlays as expenditures in fiscal year 2007-2008	\$ 94,760
Depreciation	(<u>1,556,941</u>)
	\$(1,462,181)

- 2. Principal on long-term debt was decreased by \$1,119,938. The debt was originally issued to purchase and construct capital assets. Bond issuance cost and discounts in the amount of \$803,142 are amortized over the term of the related debt. The outstanding liability is reported as reduction on net assets. Decreasing the liability increases net assets.
- 3. Amortization of current year bond issuance cost and discounts and the change in the long-term expense for accumulated compensation absences reported in the statement of activities and not the statement of revenues, expenditures and changes in fund balance is as follows:

Amortization expense	\$ <u>40,595</u>
Compensation absences	
Fire	\$ 7,284
General government	(10,296)
Public works	14,437
Police	13,917
Recreation	(5,246)
Library	1,219
Building and safety	_ 4,179
-	\$25,494

NOTE -7- PENSION PLAN:

Description of the Plan:

The City of Flat Rock participates in the Municipal Employees Retirement System of Michigan (MERS) which is an agent multiple-employer Public Employee Retirement System (PERS) that is administered by the State of Michigan. The MERS was organized pursuant to Act No. 220, Public Acts of 1996, as amended, and the Constitution of the State of Michigan. The City has no fiduciary responsibility for the plan.

The plan provides for vesting of benefits after 10 years of service. Participants may elect normal retirement at age 60 with 10 or more years of service. The plan also provides for early retirement at age 55 with 15 or more years of service, and at age 50 with 25 or more years of service. Election of early retirement is subject to reduction of benefits as outlined below.

Participants are entitled to a retirement benefit equal to the credited service at the time of membership termination multiplied by 2.0% of the member's final average compensation (F.A.C.). The retirement allowance is reduced 1/2% of 1% for each complete month that retirement precedes the age at which full normal retirement benefits are available. The plan provides that the employer/employees contribute amounts necessary to fund the actuarially determined benefits.

Actuarial valuations of each participating municipality in the MERS are prepared annually to determine the actuarial condition of the Retirement System and the employer contribution rates required to fund MERS on an actual reserve basis. The calculated employer contribution rates derived from the actuarial valuation as of December 31, 2007, are based on the present provisions of the Municipal Retirement Act of 1984, as amended by 1996 Public Act 220, as embodied in the MERS Plan Document (as revised). A comprehensive annual financial report of MERS may be obtained from the office of the City of Flat Rock, Michigan.

Effective dates for participation in the plan differ by employee bargaining group. The effective dates are as follows:

July 1, 1978 - Hourly Employees and Administrative/Non-Union July 1, 1984 - DPW Union

July 1, 1985 - Police Union

Upon the effective date for each respective bargaining group, all full time employees of the City are eligible to participate in the plan. As of December 31, 2007, the latest valuation date, the City had 76 employees of which 76 were covered employees. In addition, 2 inactive vested member and 37 retirees were also covered. As of December 31, 2007, the assets of MERS allocated to The City of Flat Rock amounted to about \$11,303,298 at market value and \$11,172,960 at actuarial value.

Funding Policy:

Each member contributes a percent of annual compensation, as selected by the City of Flat Rock. Any percentage from 0% to 10% (in .1% increments) may be selected. A 3% to 5% contribution program was available prior to 1985 and may be continued, but not adopted, after 1984. Under this program the member contributes 3% of the first \$4,200 of annual compensation and 5% of portions over \$4,200.

If a member leaves the employ of the municipality, or dies, without a retirement allowance or other benefit payable on his/her account, the member's accumulated contributions plus interest (at a rate determined by MERS, currently 2.9%) are refunded with spousal consent, to the member, if living, or to the member's surviving spouse, if any, or to a named beneficiary (after spousal consent, if applicable)

Funding the Retirement System on an actual reserve basis seeks to achieve 1) level required contribution rates as a percentage of payroll; 2) finance benefits earned by present employees on a current basis; 3) accumulate assets to enhance members' benefit security; 4) produce investment earnings on accumulated assets to help meet future benefit costs; 5) make it possible to estimate the long-term actuarial cost of proposed amendments to System provisions; 6) assist in maintaining the Retirement Systems financial viability.

The basic funding objective is a level pattern of cost as a percentage of salary throughout an employee's working lifetime. The funding method used in the actuarial valuation – the entry age normal cost method – is intended to meet this objective and result in a relatively level long-term contribution requirement as a percentage of salary.

Under the entry age normal cost method, the total actuarially-determined contribution requirement is the sum of the normal cost and the payment required to amortize the unfunded accrued liability over an amortization period of 30 years (up to 37 years for municipalities that have participated in MERS for less than 10 years), less the accelerated funding credit, if available. Active member payroll is assumed to increase 4.5% a year for the purpose of determining level percent contributions.

Total covered payroll for the year ended December 31, 2007, was \$4,100,932 and the annual estimated contribution for the fiscal year beginning July 1, 2008, is \$601,548. During the fiscal year's ended June 30, 2008, 2007, and 2006, employer contributions totaling \$601,000, \$574,000, and \$529,000, respectively, were made.

Results of Actuarial Valuation:

The actuarial valuation of the liabilities and contribution rates resulting from the participation of the City of Flat Rock in MERS as of December 31, 2007, is based on the pension benefit provision of MERS, as governed by Act No. 220 of the Public Acts of 1996, as amended and the MERS plan document as revised, the characteristics of active and inactive MERS members, the assets attributable to MERS members of the City of Flat Rock and the actuarial assumptions and funding method, which include an investment yield rate of 8% and the entry age normal actuarial cost method.

Results of Actuarial Valuation (continued)

The actuarial accrued liability using the entry age normal actuarial method is calculated as follows:

Retirees and beneficiaries currently receiving benefits	\$ 8,564,496
Terminated employees not yet receiving benefits	84,229
Non-vested terminated employees (pending refunds of accumulated Member contributions)	35,857
Current employees Accumulated employee contributions including allocated investment income	2,291,468
Employer financed	6,933,531
Total Actuarial Accrued Liability	17,909,581
Net Assets Available for Benefits, at Actuarial Value (market value is \$11,303,298)	11,172,960
Unfunded Actuarial Accrued Liability	\$ <u>6,736,621</u>

The employer contribution rate has been determined based on the entry age normal funding method. Under the entry age normal funding method, the total employer contribution is comprised of the normal cost plus the level annual percentage of payroll payment required to amortize the unfunded actuarial accrued liability over 30 years. The employer normal cost is, for each employee, the level percentage payroll contribution (from entry age to retirement) required to accumulate sufficient assets at the member's retirement to pay for his or her projected benefit.

The actuarial accrued liability represents the difference between the present value of all future benefits and the present value of future normal costs. The unfunded actuarial accrued liability (i.e, the actuarial accrued liability less assets accumulated as of the valuation date), is then amortized as noted above. The components of the employer contribution rate (i.e. the normal cost and amortization payment) and the estimated dollar contributions for the fiscal year beginning July 1, 2008, are as follows:

Computed Employer Contributions to the Retirement System For the Fiscal Year Beginning July 1, 2008

Employer Contributions As Percentages of Payroll and Dollars

		Unfunded	
Valuations Division	Normal Cost	Accrued Liability	<u>Totals</u>
Cost of Percentage of Payroll			
General - Clerical	6.64%	(3.49)%	3.15%
Police – POAM	5.51	3.29	8.80

Estimated Annual Contributions* Total Municipality	\$ <u>250,500</u>	\$ <u>344,040</u>	\$ <u>594,540</u>

Results of Actuarial Valuation (continued)

During the 1980's, the Retirement Board had implemented a program of contribution credits which give recognition of accelerated funding levels. The accelerated funding credit allows, in certain situations, for contributions to temporarily be reduced from the regular contribution shown above. For the fiscal year beginning July 1, 2007, no accelerated funding credits were available to the City of Flat Rock.

There is no single all-encompassing test for measuring a retirement system's funding process and current funded status. However, some common indicators of the progress that a retirement system has achieved in funding their obligations include observing the changes over time in the following items:

- 1. The ratio of valuation assets to actuarial accrued liabilities.
- 2. The pattern of unfunded actuarial accrued liability as a percentage of active payroll.
- 3. The ratio of valuation assets to the actuarial present value of vested benefits.

The following is a schedule of the historical changes in the first two funding measures:

				UAL as
			Unfunded	Percent of
Accrued	Valuation	Funded	Actuarial	Annual
<u>Liabilities</u>	<u>Assets</u>	Percent	<u>Liability</u>	<u>Payroll</u>
\$ 6,387,389	\$ 5,166,850	81%	1,220,539	70%

Notes: Actuarial assumptions were revised for the 1993, 1997, 2000 and 2004 actuarial valuations. The funding method was changed to entry age normal for the 1993 valuation.

The following is a comparative schedule of termination liability and present value of accrued benefits as of December 31, 2007:

	Termination	Present Value of
Type of Member	<u>Liability</u>	Accrued Benefits
Active Members		
General Clerical	\$ 337,064	\$ 288,846
Police POAM	465,710	536,286
General Union	1,007,658	885,166
Dept. Heads	1,692,559	1,503,329
Administrative Employee	308,165	261,652
COAM	<u> </u>	<u>2,150,017</u>
Totals	5,797,234	5,625,296
Vested Former Members	84,229	84,229
Pending Refunds	35,857	35,857
Retired Members and Beneficiaries	8,564,496	<u>8.564.496</u>
Total Present Value of Benefits	14,481,816	14,309,878
Total Valuation Assets	11,172,960	11,172,960
Excess Value of Benefits Over Valuation Assets	\$ 3,308,856	\$ <u>3,136,918</u>
Over valuation Assets	a <u>3,306,630</u>	<u> 2,120,910</u>

Note -The termination liability represents the present value of benefits payable in the event that all active members terminate employment on December 31, 2007, based upon valuation interest and mortality assumptions. The present value of accrued benefits includes vested and non-vested benefits accrued as of December 31, 2007.

NOTE -8- LONG-TERM DEBT:

The following is a summary of the outstanding debt of the City of Flat Rock as of June 30, 2008:

		TYPE OF <u>DEBT</u>	NO. OF ISSUES	INTEREST <u>RATE</u>	MATURING <u>THROUGH</u>	PRINCIPAL OUTSTANDING
GOVERNME	NTAL ACTIVITIES:

NOTE -11- RISK MANAGEMENT:

The City purchases commercial insurance covering risks of loss arising from torts, asset theft, damage or destruction, business interruption, errors and omissions, job related illness or injuries to employees, workers compensation, accident, health, and other medical benefits.

There have been no significant reductions in insurance coverage. Settlement amounts have not exceeded insurance coverage for the current year or the three prior years.

The City is the defendant in several legal actions which have arisen in the ordinary course of operations. These actions are not anticipated to have a significant effect on the financial condition of the City.

NOTE -12- DEFERRED COMPENSATION PLAN:

The City has a Deferred Compensation Plan created in accordance with Internal Revenue Code Section 457. The Plan is administered by an independent plan administrator. The Plan is available to all City employees. Employees defer a portion of their salary until future years. Deferred compensation is not available to employees until termination, retirement, death or financial hardship.

The Deferred Compensation Plan is recorded in the Agency Fund. The Plan's assets are presented at fair market value and captioned as "investments" with corresponding liabilities captioned "deferred compensation benefits".

NOTE -12- DEFERRED COMPENSATION PLAN (continued):

All amounts of compensation deferred under the Plan, all property and rights purchased with those amounts, and all income attributable to those amounts, property, or rights are (until paid or made available to the employee or other beneficiary) solely the property and rights of the City (without being restricted to the provisions of benefits of the Plan), subject to the claims of the City's general creditors. Participant's rights under the Plan are equal to those of the general creditors of the City in the amount equal to the fair market value of the deferred amount for each participant.

The City has no liability for losses under the Plan agreement but does have the duty of due care that would be required of an ordinary prudent investor. The City believes that it is unlikely that it will use the assets to satisfy the claims of general creditors.

NOTE -13- POST RETIREMENT BENEFITS:

The City provides health care benefits to retirees. These benefits are paid annually from the General Fund.

The total cost to the City for health care benefits for the year ended June 30, 2008, was \$1,065,000 for approximately 80 active employees and 37 retirees.

NOTE -14- ADVANCE REFUND OF SEWAGE DISPOSAL BONDS:

On May 24, 1994, the City issued \$2,295,441 of Wayne County Sewage Disposal (Flat Rock System) Refunding Bonds with variable interest rates (3.15% to 5.19%) to advance refund \$2,175,000 of outstanding Wayne County Sewage Disposal (Flat Rock System) Bonds dated July 1, 1970, with variable interest rates (6% to 8%). The net proceeds of \$2,242,444 (after payment of \$52,997 in underwriting fees and issuance costs) were used to purchase U.S. government securities. Those securities were deposited in an irrevocable trust with an escrow agent to provide for all future debt service payments on the 1970 Series Bonds. As a result, the 1970 Series Bonds are considered to be nullified and the liability for those bonds has been removed from the Enterprise-Water and Sewer Fund. At June 30, 2008, the balance of the defeased 1970 Series Bonds was \$400,000.

The City advance refunded the 1970 Series Bonds to reduce its total debt service payments over the next 14 years by \$91,612 and to obtain an economic gain (difference between the present values of the debt service payments on the old and new debt) of \$67,211.

NOTE -15- MICHIGAN TAX TRIBUNAL:

Currently the City of Flat Rock has numerous matters pending before the State of Michigan Tax Tribunal requesting the lowering of local real and personal property taxes. No single matter taken alone would significantly affect the tax base of the City.

NOTE -16- JOINT VENTURES:

33rd District Court - The City is a member of the 33rd District Court System (the "District Court"). The City appoints one member to the joint venture's governing board, who then approves the annual budget. The District Court receives its operating revenue principally through contributions from the member communities. The debt of the joint venture is being financed by member contributions. Complete financial statements for the District Court can be obtained from the administrative offices at 19000 Van Horn Rd., Woodhaven, MI 48183. The City is unaware of any circumstances that would cause an additional benefit or burden to the participating governments in the near future.

South Huron Valley Utility Authority - The City is a member of the South Huron Valley Utility Authority, which provides sanitary sewage disposal services. Each of the eight member communities appoints one member to the Board. The Authority receives its operating revenue through charges to the communities. The City's share of the debt of the joint venture is being financed by the City through debt service charges. During the year ended June 30, 2008, the City paid operating costs of \$768,000. In addition, the City paid \$362,560 in principal payments and \$115,000 in interest expense. Complete financial statements for the Authority can be obtained from the administrative offices at 34001 West Jefferson, Brownstown, MI 48173

Naming Rights Agreement – The City of Flat Rock, in conjunction with Auto Alliance International, Inc., (AAI), Ford Motor Company and Mazda Motor Corporation has agreed to the sale of naming rights for a new community center. The City has built a new recreational community center in which AAI has agreed, under general terms and conditions, to purchase the right to name the ("New Community Center") for \$6,100,000.
