Payrolls, circulating through the channels of trade, have created new markets for the products of the soil. The taxable values they brought have lowered the tax burden on other citizens.

Thus the coming of dependable power hastens the coming of prosperity both to business and agriculture.

## PREFACE

# ALBANY, GEORGIA

### "The World's Pecan Center"

Albany, a city of about 20,000 population is the commercial metropolis of Southwest Georgia. Albany, has a Commission-City Manager form of Government. Albany owns its water, light and gas plants; owns and operates a Municipal Abattoir, and owns a Municipal Auditorium, seating 1800 people.

### Hydro-Electric Development

The South Georgia Power Company at Albany has two Hydro-Electric plants—one of 2,500 H. P., on Kinchafoonee Creek and one of 12,500 H. P., on Flint River. This Hydro-Electric Development makes it possible for the South Georgia Power Company to make very attractive wholesale power rates.

### Health and Sanitation

Albany's water supply comes entirely from Artesian Wells. The quality of the water, the rigid sanitary regulations, the restrictions thrown around all milk and food supplies, combined with the wonderful climate, account for Albany's exceptional health record.

### Amusements

Albany is the Amusement center of Southwest Georgia. Radium Springs, is a resort par excellence. Sport at Radium Springs includes golfing, on the championship 18-hole course, trap shooting, swimming canoeing, fishing and hunting. The Kinchafoonee Club has a splendid 9-hole golf course. There are four Municipal Parks, with children's play grounds, tennis courts, etc. Good roads and the fine climate make motoring an all year pursuit.

### Railroad Facilities

Albany, is served by seven lines of railroads, operated by The Central of Georgia, Atlantic Coast Line, The Seaboard Air Line, Georgia South Western & Gulf, and The Georgia Northern Railroads. The Central of Georgia and The Atlantic Coast Line Railroads are spending hundreds of thousands of dollars enlarging their terminal and shop facilities at Albany. The completion of the Atlantic Coast Line's direct line from Albany to Tampa, Florida, has made Albany the Railroad gateway to Western Florida. It is now the second Freight terminus of the Atlantic Coast Line Railroad, ranking next to Richmond, Virginia, handling a heavy movement of freight between Florida and the Central West.

Excellent Passenger Service is available into and out of Albany. There are six DeLuxe Passenger trains being operated daily to Cincinnati, Detroit, Cleveland, Chicago, and other important cities.

### Agriculture and Pecan Industry

Albany is the World's Pecan Center. Forty-two per cent of the pecans grown in Georgia are grown in Dougherty County and seventy-two per cent of the bearing pecans in Georgia are within a radius of 60 miles of Albany. Pecans have become one of the leading features of Southwest Georgia's Diversified Agriculture. Approximately five million pounds of pecans are handled through the Albany markets annually.

### Industrial Development

Albany's Industrial Development is based on the local supply of raw material

CONTINUED ON PAGE 8

## PREFACE — Albany, Georgia

and upon the distribution facilities.

Albany has a cotton mill, a large hardwood mill, three peanut shelling plants, six fertilizer factories, a cotton seed oil mill, gins, processing plants for pecans, and numerous smaller industries.

### Schools

Albany has just completed a \$250,000 High School building, one of the model High schools in the South. Albany has five grade grammar schools for white children and three for colored children, and a new high school for colored children also, the Georgia Normal and Industrial College, a State Institution for colored pupils.

### Good Roads

Albany is located on the Appalachian Scenic Highway, the Florida Short Route and the Western leg of the Dixie Highway. All three of these are popular motor routes from North to South.

### Excellent Churches

Albany has three Methodist Churches, two Baptist Churches, a Presbyterian Church, an Episcopal Church, a Catholic Church and a Jewish Synagogue. The communicants of the various denominations dwell together in amity. No spirit of intolerance is ever evidenced.

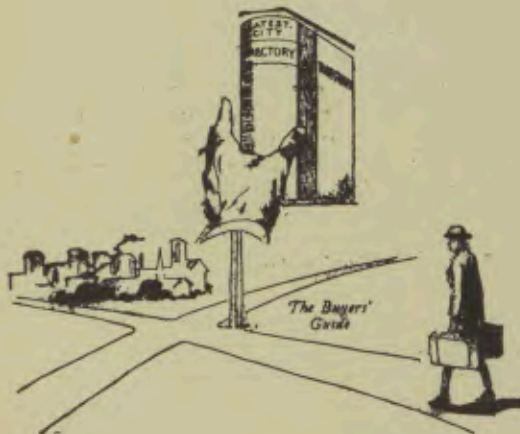

### Climate

Albany is built on a level plateau on the west bank of the Flint River at the head of Navigation. Its altitude above sea level is 212 feet.

"The climate of Southwest Georgia, in which Dougherty County is located, is characterized by long, warm summers and short, mild winters. The summer weather usually begins the latter part of March and continues until late October or early November. The mean temperature for this part of the year ranges from about 60 degrees F. for the months of March and November to slightly above 80 degrees F. for the summer months, June, July and August. The hottest of these months, July, has a mean temperature of 82.9 degrees F."

ALBANY CHAMBER OF COMMERCE.

The classification by business will be found after the alphabetical arrangement of names. For full indices to the contents of the work, see index.

(\*) A star (\*) is often used in most directories for various purposes. A star (\*) or hand (H) is used in the Business Department of a directory to denote a special classification or listing; sometimes in the Street Department, in front or after a number, to denote a business place; it may be used, at the option of the publisher, to denote a married or single person; it is most generally used before or after a name to denote a colored person. Its use, however, being so general, the Publishers will not assume any responsibility for errors or its wrong use.

**The First Place  
the Buying Public  
Goes!**

Why the City Directory first? It saves time. The ads are classified. Your customers find you instantly. It's the logical place for them to go because its an index to the city.

The advertisement features a large sign on the left that reads "CITY DIRECTORY". To the right of the sign, a diverse crowd of people, including men in suits and hats, women in dresses and coats, and children, are walking in a line. The background is a simple, dark, textured area.

## LOOK THE SOUTH OVER

**S** If you are looking for a good location to start any Industrial Enterprise, large or small, or if you are seeking a homesite in a healthful and delightful climate,

**S** Note the Wonderful Growth, Ideal Climate, inexhaustible Hydro-Electric Water Power, Good Honest American Labor to be had at Reasonable Wages.

**S** The South is destined to become the Great Manufacturing Center of North America. If you are seeking a manufacturing site or a home, come South—mild climate, no rigorous cold—Beautiful Scenery.

### Hospitality Unexcelled

**S** The South Deserves Your Consideration—In the South are cities that offer great opportunities to the Manufacturer or Home-seeker. If you want further information, write the Chamber of Commerce, or, write us.

## CLASSIFIED BUSINESS DIRECTORY OF ALBANY, GEORGIA

VOL. IV.

THE PIEDMONT SERIES

1930-31

NOTE—Patronize those whose names are in large type, for they are the progressive ones and generally the leaders in their line.

☞ Index appears in front of special business headings only, for which an extra charge is made.

NOTE—\*Purpose of star (\*) in front of name is generally used to denote colored person or firm. In the Business Dept. it may denote a special business classification, but its use is so varied that we assume no responsibility for errors.

## Putting the Out-of-the-way Business on the Main Street For a Few Dollars

The business that is up-stairs in some building or off the beaten trail can overcome its location—can put itself on the Main Street of Public Attention by advertising in the City Directory.

Your advertisement entitles you to be listed in heavy type under all of the classifications of your business in the new City Directory now being compiled. This makes your business **STAND OUT**. Thousands of people consult this buyers' guide every year.

Thus, for a very small sum you can be located on

**The Main Street of your City Catalog**  
for a whole year.

## Albany, Georgia Street Directory

Giving Names of Householders and Denoting Business Places

VOL. IV.

THE PIEDMONT SERIES

1930-31

Note:—All Streets and Avenues are arranged in alphabetical order; the house numbers are arranged in numerical order, with names of householder after each number.

Dash (—) before name denotes that number is wanting.

(\*) Purpose of star (\*) in front of name is to denote colored person or firm, but we assume no responsibility for its wrong use; errors often creep in.

## Boost Your City

### ADVERTISING PAYS

When you advertise in the directory you advertise your city as well.

This Directory is placed in libraries and with commercial organizations in various cities throughout the United States.

The City Directory is a complete index to your city and tells the story of its progress.

If your business is not listed as it should be, you are missing a golden opportunity, not only to increase your business but to promote the growth of your city as well.

The possibilities of the City Directory cannot be properly told in words.
