**CITY OF FARMERSVILLE
RESOLUTION # R-2016-0126-005**

A RESOLUTION OF THE CITY COUNCIL OF THE CITY OF FARMERSVILLE, TEXAS, AUTHORIZING THE TEXAS COALITION FOR AFFORDABLE POWER, INC. (TCAP) TO NEGOTIATE AN ELECTRIC SUPPLY AGREEMENT FOR FIVE YEARS FOR DELIVERIES OF ELECTRICITY EFFECTIVE JANUARY 1, 2018; AUTHORIZING TCAP TO ACT AS AN AGENT ON BEHALF OF THE CITY TO ENTER INTO A CONTRACT FOR ELECTRICITY; AUTHORIZING _____ or _____ or _____ TO EXECUTE AN ELECTRIC SUPPLY AGREEMENT FOR DELIVERIES OF ELECTRICITY EFFECTIVE JANUARY 1, 2018 AND COMMITTING TO BUDGET FOR ENERGY PURCHASES IN 2018 THROUGH 2022 AND TO HONOR THE CITY'S COMMITMENTS TO PURCHASE POWER FOR ITS ELECTRICAL NEEDS IN 2018 THROUGH 2022 THROUGH TCAP

WHEREAS, the City of Farmersville, Texas (City) is a member of Texas Coalition For Affordable Power, Inc. (TCAP), a non-profit, political subdivision corporation dedicated to securing electric power for its more than 170 members in the competitive retail market; and

WHEREAS, TCAP has unique rights under Texas law to negotiate directly in the wholesale market and arrange separate contracts for power supply and retail services which provides TCAP leverage to achieve contract provisions that single city negotiations with a Retail Electric Provider (REP) would be unlikely to produce; and

WHEREAS, TCAP's geographic diversity across all four ERCOT zones produces an aggregated peak load that is lower than the total of individual peak loads of the individual TCAP members, allowing price benefits in the wholesale market that are not likely to be available to any given TCAP member alone; and

WHEREAS, TCAP and its predecessor organizations, Cities Aggregation Power Project, Inc. (CAPP) and South Texas Aggregation Project, Inc. (STAP), negotiated favorable contract terms that resulted in rebates from the wholesale supplier and reasonable commodity prices for delivered electricity since 2002 resulting in stable budgets for electricity for members; and

WHEREAS, commodity prices for electricity experienced significant volatility between 2002 and 2009, with prices ranging from 4 cents to over 13 cents per kWh, causing CAPP and STAP members to welcome a five year contractual commitment that came close to cutting the 2008 prices in half, with that contract being extended until December 31, 2017, with a negotiated price reduction of about 1 cent per kWh; and

WHEREAS, TCAP has become a forceful voice for consumer protections and market reform to benefit the public and well as cities and other political subdivisions; and

WHEREAS, TCAP is owned by its members and distributes monetary and other resources according to relative load size of members and is controlled by a 15 member Board of Directors, all of whom must be city employees of members who represent diversity in size and geography; and

WHEREAS, wholesale power prices within the deregulated Texas market are largely determined by the NYMEX gas futures prices for natural gas which are currently low and relatively stable, but which change daily; and

WHEREAS, daily price changes require retail customers to execute a contract immediately upon receipt of a favorable offer; and

WHEREAS, pursuant to Texas Local Government Code Section 252.022(a)(15) expenditures for electricity are exempt from competitive bidding requirements; and

WHEREAS, on any given day, TCAP is able to capture a favorable wholesale price for any period of time, comparable to or better than any given REP or broker; and

WHEREAS, TCAP intends to continue to contract with its current wholesale supplier, NextEra, because the relationship with NextEra is such that NextEra is willing, after it knows the size of a given load, to execute a contract at or below prescribed price and terms; and

WHEREAS, the City desires to execute a contract for electricity for the period beyond the expiration of its current contract on December 31, 2017, that locks-in favorable wholesale prices under one of three different supply options:

Option 1 - fixed-price, full-requirements at a price not to exceed 4.1 cents per kWh for the North and West zones or 4.25 cents per kWh for the South and Houston zones;

Option 2 - fixed price for on-peak hours and variable spot market prices for off-peak hours;

Option 3 - block energy at a fixed price to cover the base load hours, a fixed price for solar energy to cover mid-day peak hours (approximately 10% of total load) and variable spot market prices for all remaining consumption; and

WHEREAS, TCAP will allow members six weeks from receipt of this resolution to consider whether to participate in this second opportunity to contract for post-2017 electrical supply, and thereafter allow NextEra until June 30, 2016 to contract for power for five years at a price not to exceed 4.1 cents per kWh in the North and West zones and a price not to exceed 4.25 cents per kWh in the South and Houston zones for Option 1, so long as the aggregated load for any of the three supply options reaches at least 50 megawatts; and

WHEREAS, wholesale suppliers demand assurance that TCAP will pay for all contracted load; and

WHEREAS, the City needs to assure TCAP that it will sign a Commercial Electric Supply Agreement (CESA) reflecting the contract extension and budget for energy purchases for the post-2017 period and honor its commitment to purchase power for its electrical needs for 2018 through 2022 through TCAP,

THEREFORE, BE IT RESOLVED BY THE CITY COUNCIL OF THE CITY OF FARMERSVILLE, TEXAS, THAT:

Section 1: That the TCAP Board of Directors and its consultants and advisors are agents authorized to negotiate for the City's electricity needs as a member of TCAP for the period 2018 through 2022 at a price not to exceed 4.1 cents per kWh for the North and West zones and a price not to exceed 4.25 cents per kWh in the Houston and South zones for supply Option 1;

Section 2: The City prefers to participate in supply Option _____ with the following understanding: a) while supply Option 1 is a full-requirements, fixed-price option, Options 2 (fixed price on-peak, variable spot prices for off-peak usage) and 3 (fixed price for base load, fixed price for a portion of peak load, and variable spot market for remainder) have variable price components and savings over Option 1 cannot be guaranteed, and b) if there is insufficient desire among members to achieve a 50 MW threshold for either Option 2 or 3, the member selecting the inadequately subscribed option will be placed in the Option 1 category. If no option is selected, TCAP will assume that a passed Resolution approves of Option 1.

Section 3: Assuming this resolution is passed before February 25, 2016 and the combined load of TCAP members passing this resolution exceeds 50 megawatts for the preferred Option and NextEra is able to provide TCAP an opportunity prior to June 30, 2016 to contract for power to be delivered to members at a price not to exceed 4.1 cents per kWh for the North and West zones and not to exceed 4.25 cents per kWh in the Houston and South zones for supply Option 1 for the period January 1, 2018 through December 31, 2022, any one of the following individuals is hereby authorized to sign an electric supply agreement for the City within 24 hours of receipt of a contract that has been approved and recommended by the TCAP Board of Directors:

_____ or _____ or
_____.

Section 4: That the City will commit to purchase power to meet all of its electricity needs eligible for competition pursuant to the TCAP approved supply agreement and approve funds necessary to pay electricity costs proportionate to the City's load under the supply agreement (whether wholesale or retail) arranged by TCAP and signed by TCAP's Executive Director or President or other TCAP representatives authorized by the TCAP Board.

Section 5: That a copy of this resolution shall be sent to Jay Doegey, Executive Director, TCAP, 15455 Dallas Parkway, Suite 600, Addison, Texas 75001 and Geoffrey M. Gay, legal counsel to TCAP at 816 Congress Avenue, Suite 1900, Austin, Texas 78701.

Re: Your individualized annual report of progress from the state office

Dear Adah Leah,

Earlier this month, your program received its 2016 annual contract and invoice for continuing participation as a designated Texas Main Street community. This is a follow up to that correspondence. This snapshot of progress seems appropriate at the present time, both because the Texas Main Street Program celebrates its 35th anniversary in 2016, and because the National Main Street Center will roll out its re-evaluated Four Point Approach™ during the year.

The intent of this individualized program snapshot is to help you and your stakeholders see both how powerful the network is and to spotlight the return on investment your community receives from participation. We think you will find this information helpful and interesting and we encourage you to share it as appropriate with your stakeholders. At the same time, you might find that this communication is a helpful tool for determining targeted improvement areas for your program.

As you know, the Texas Main Street Program is one of the oldest and largest state Main Street programs in the nation, having been one of the first created in 1981 following the nationwide introduction of the then-new Main Street Four Point Approach™. The model has proven itself over the ensuing years as a highly effective economic development tool. Nationwide, thousands of communities just like yours have reported overall reinvestment of almost \$62 billion since the national Main Street movement was created in the late 1970s. Additionally, under an economic development concept that supports and facilitates the development of independent retail in the historic downtown, there have been 528,557 jobs and 120,510 small businesses created nationwide. Texas' statewide reinvestment statistics since 1981 are just as noteworthy, as you can see from the chart below.

Statewide Main Street reinvestment statistics for Texas, 1981-September 2015 (all programs)

Overall reinvestment from public and private sources: \$3.177 billion

Private sector reinvestment (of total) into local Main Street districts: \$2.047 billion

(shows that public investment and incentives have been successfully utilized to spur private development)

Gain in businesses: 8,627 (253 annually)

Gain in employment: 34,260 (1,007 annually)

All of this information will be further detailed in the Texas Main Street annual report that will be published in our monthly e-newsletter, *Main Street Matters*, in January. At that time, you'll be able to find it here: <http://www.thc.state.tx.us/preserve/projects-and-programs/texas-main-street/resources/main-street-matters>.

Each population group has many years of Main Street participation, with two of the seven closing in on two decades. This is important to point out, since, as an economic development program, Main Street needs to be viewed as a long-term commitment and the necessary resources need to be locally provided for its progress. At the state level, we have a staff of eight professionals available to provide numerous services to designated communities at no additional cost outside of your annual administrative fee. This includes design and historic preservation services to all public and private property owners in the district; organizational management, strategic planning and program capacity building services such as training and professional development for managers and volunteers; and community planning and economic development services. This assistance is a way to leverage existing resources and we hope you will take advantage of our services regularly.

Effective organizations are strategic about what they do and how they do it, and they document measurable progress. For that purpose, local programs submit monthly activity reports, quarterly reinvestment reports and annual reports to the state office. Our records show that in the past 12 months, your program has submitted 12 monthly activity reports; and 4 quarterly reinvestment reports (4 quarters). Submission of these reports is required in your contract. Seventeen years ago, an Accreditation program recognizing achievement of reported annual progress was created by the National Main Street Center and carried out in Texas through our office. Your program has received National Accreditation 15 of the 15 times it has been eligible (not including annual report turned in Nov. 2015). Since your program began its affiliation with Main Street 16 years ago, the reinvestment reports submitted for your community show:

- Overall reinvestment of \$13,442,929
- Creation of 183 jobs and 99 small businesses

Article 4. ZONING DISTRICTS AND SPECIAL REQUIREMENTS

Sec. 4-1. Signs for the Central Area Zoning District (CA).

(A) Policy and Purpose.

(1) The CA is a unique historical and cultural environment that provides a certain charm and aura to the City which cannot be replaced and is worthy of preservation.

(2) In an age of uniform franchise signs and generic plastic "box" signs, historic signs and even new historic styled signs (signs which emulate or imitate historic signage) often attract by their individuality. Historic signage typically allowed buyers and sellers to communicate quickly using images that were the medium of daily life. By communicating names, addresses, prices, products, images and other fragments of daily life, historic styled signs also bring the past to life.

(B) Design Considerations.

(1) In order to preserve the benefits of the CA, all signs in the CA shall have a design appearance compatible with, reflective of, and incorporating materials and

design elements utilized in the original building design, time era, and historic downtown character of the CA. The following points should be considered when designing and constructing new signs for structures in the CA:

- (a) New signs should emulate or imitate historic signage. The simple signs that were originally used on these buildings serve as the best example for new signs.
- (b) Signs should be viewed as part of an overall graphics system for the historic building to which they are attached. Signs should work with the building, rather than against it.
- (c) New signs should respect the size, scale and design of the historic building.
- (d) Sign placement is an important decision and new signs should not obscure significant architectural features and building elements or design details of a historic building.
- (e) New signs should also respect neighboring buildings and add to the tapestry and appeal of the CA. New signs should not overpower the historic building to which they are attached or adjacent structures.
- (f) Sign materials should be compatible with the historic character of the building and the CA. Materials characteristic of the building's period and style, used in contemporary designs, can form effective new signs.
- (g) New signs should be attached to the building carefully to prevent damage to historic fabric and to ensure the safety of pedestrians. Fittings should penetrate mortar joints rather than brick, for example, and sign-loads should be properly calculated and distributed.

(C) Sign Standards.

- (1) Allowable signs in the CA include general business signs, incidental signs, menu boards, nameplates, wall signs and rear wall signs.
- (2) Signs shall be designed for pedestrian and slow moving traffic. Big does not mean better.
- (3) Signs shall be flat signs with an allowable thickness of no more than four inches (4"), measured from the wall surface to that portion of the face of the sign which projects furthest away from the building wall.
- (4) Signs should be placed under the lower cornice. No sign shall be allowed above the top of the second-story windows of a building.

(5) Signs may be placed on the building's fascia or on the sign frieze, which is the horizontal flat bank above the store windows. Such signs may be on a flat signboard or made of individual letters or symbols attached to the building's fascia or sign frieze.

(6) Signs may be placed on an awning.

(a) Only one awning sign is allowed per building.

(b) Awnings shall be positioned to emphasize special shapes or details of the façade, draw attention to shop entrances, or to emphasize a display window.

(c) Awning signs positioned along the first floor level of the façade shall be no less than eight feet (8') from the sidewalk to the sign.

(d) Awning signs shall not extend beyond the awning or canopy projection.

(e) Awnings and Awning Signs shall not be made of metal, shiny plastic, barrel or square extension awning, or internally-illuminated vinyl awning.

(7) Sandwich boards are allowed provided they adhere to the following criteria:

(a) One sign per primary entrance;

(b) May extend out a maximum of two feet from the building, with the maximum of six square feet of sidewalk area used.

(8) Projecting signs that hang over the sidewalk are discouraged because they often obscure individual buildings and interrupt the visual harmony of the street. A projecting sign that is attached to a wall and extends out from a building may be used provided it meets the following criteria:

(a) The projecting sign shall not extend more than fifteen inches (15") in whole or in part horizontally or diagonally beyond the surface of the building to which it is attached;

(b) The projecting sign shall be placed along the first floor level of the facade;

(c) Projecting signs must have a minimum clearance above the sidewalk of eight feet (8') and shall not extend twelve feet (12') or more above the sidewalk nor above the roof line of the building to which it is affixed;

- (d) The projecting sign shall be of a unique shape and design or symbolize the services offered within the business being advertised such as a bowl and trestle advertising a drug store or pharmacy; and,
- (e) The projecting sign shall be no more than four inches (4") thick.
- (9) Materials and colors shall be harmonious with the architecture of surrounding structures in the CA.
- (10) Sign materials should be durable and easy to maintain. Appropriate and acceptable sign materials include: painted or carved wood; carved wooden letters; galvanized sheet metal; porcelain enamel; slate, marble, or sandstone; gold leaf; gilt, painted, stained, or sandblasted glass; or stained glass. Plastic shall not be allowed unless it is determined to have the appearance of one of the appropriate sign materials identified herein.
- (11) A sign in the CA shall not visually dominate the structure to which it belongs or call undue attention to it.
- (12) No "Day Glow," fluorescent, neon or brilliant bright colored signs shall be allowed in the CA. Standard or traditional colors shall be used.
- (13) No rear lighted, or internally lighted, plastic signs shall be allowed in the CA.
- (14) No sign shall contain any moving parts or be lit from behind or internally unless and except it is a historically accurate reproduction of a sign previously existing in the specific location proposed.

Sec. 4-2. Zoning Districts.

The zoning district in which the sign is located as established by the City of Farmersville Comprehensive Zoning Ordinance and as indicated on the City of Farmersville Zoning Map. The Comprehensive Zoning Ordinance and the Zoning Map may be amended from time to time.

(H) *Glass signs over public property or pedestrian area.* Signs constructed of glass or other materials which may shatter upon impact are prohibited over a public right-of-way or pedestrian area.

(J) *Multitple signs on a property or building.* The permitting of a sign on a property or building shall not preclude the permitting of other types of signs on a property or building, unless the signs are expressly prohibited herein.

(K) *Exemptions.* Signs located within a building, with the exception of window signs, shall not be regulated by this article.

Article 6. VARIANCES

Sec. 6-1. Variance Procedures.

The Farmersville Planning and Zoning Commission shall perform the functions of the Sign Board of Appeals (the Board). Refer to Section 7-1 for more information regarding the Sign Board of Appeals.

(A) Requests for variances to sign regulations and allegations of errors in orders, decisions, or determinations by an administrative official in the administration of the sign regulations shall be made in writing by the applicant and heard by the Board at a public hearing. An application for such appeal may be obtained from the City. The Board shall hear, if possible, the request for a variance or the allegation of error within 30 days after receipt of a completed application and applicable application fees. The application will require written authorization from the property owner before being filed.

(B) Before the tenth day before the date of the public hearing conducted by the Board, written notice of the public hearing shall be sent by its deposit in the United States mail to each owner, as indicated by the most recently approved municipal tax roll of property within 200 feet of the property on which the variance is proposed. The notice shall include a description of the time and place of such hearing, a description of the location of the subject property, and a description of the requested variance. In addition, the notice shall be published in the official newspaper of the City stating the time and place of such hearing, a minimum of ten days prior to the date of the public hearing.

(C) In order to approve a request for a variance, the Board shall determine whether the request meets three of the following four criteria:

(1) The proposed sign shall not adversely impact the adjacent property (visibility, size and the like);

(2) The proposed sign shall be of a unique design or configuration;

(3) The variance is needed due to restricted area, shape, topography, or physical features that are unique to the property or structure on which the proposed sign would be erected;

(4) The variance will substantially improve the public convenience and welfare and does not violate the intent of this article.

(D) Should the Board deny a request for a variance, the applicant may appeal the request to City Council. A vote of three-fourths of the council members present, or four votes, whichever is greater is required to approve the appeal. The City Council's decision is final. The appeal to the City Council will require re-notification of the surrounding property owners and publication in the newspaper in the same manner described in subsection (B), above.

(E) A variance shall not be approved for a sign that is prohibited by this article.

Article 7. THE SIGN BOARD OF APPEALS

Sec. 7-1. Operation Procedures for Sign Board of Appeals.

(A) The Sign Board of Appeals shall adopt rules to govern its proceedings provided that such rules are not inconsistent with this Code. Meetings of the Board will be held at the call of the Chairman or at times the Board determines necessary. All meetings shall be held in accordance with the Texas Open Meetings Act. The Chairman or, in his absence, the acting Chairman, may administer oaths and compel the attendance of witnesses.

(B) The Board shall keep minutes of its proceedings, showing the vote of each member upon each question or if absent or failing to vote, indicating such fact, and other

official actions. All records shall be immediately filed in the office of the City Secretary and shall be a public record.

(C) The Board may hear appeals by any person aggrieved, or by any officer, department or board of the City affected by any decision of the Building Official. Such appeal shall be taken within 10 days' time after the decision has been rendered by the Building Official, by filing with that officer and with the Board a notice of appeal specifying the grounds thereof, accompanied by a filing fee as provided for in the Master Fee Schedule. The Building Official shall transmit to the Board all of the papers constituting the records upon which the action appealed from was taken.

(D) An appeal shall stay all proceedings in furtherance of the action appealed for, until the Board takes action, unless the Building Official certifies to the Board, after the notice of appeal shall have been filed, that in his opinion such stay will cause imminent peril to life. In such a case, proceeding shall not be stayed. Notwithstanding the foregoing, any criminal action having been commenced in the Municipal Court shall not be stayed.

(E) No appeal to the Board for the same or a related variance on the same piece of property shall be allowed prior to the expiration of six months from the previous ruling by the Board, unless other property in the immediate vicinity has within said six months, been changed or acted on by the Board or City Council so as to alter the facts and conditions upon which the previous Board action was based, as determined by the Board. Such change of circumstances shall permit the rehearing of an appeal prior to the expiration of a six-month period, but such conditions shall not have any force in law to compel the Board after hearing, to grant a subsequent appeal; such subsequent appeal shall be considered entirely on its merits and the peculiar and specific conditions related to the property on which the appeal is brought.

(F) At a public hearing, any interested party may appear before the Board in person or by agent or by attorney. The burden of proof shall be on the applicant to establish the necessary facts to warrant favorable action of the Board on any matter. Any action granting a variance authorizing the issuance of a sign permit shall be valid for only 60 days, unless said permit is secured in this 60-day period and construction is commenced in accordance with the Building Code, in which event the action of the Board shall be permanent with regard to the specific sign for which a variance is granted. If said sign permit is not secured in the 60 days, or such period granted by the Board, the action subsequent appeal and such appeal shall be subject to the same regulation and requirement for hearing as herein specified for the original appeal.

Sec. 7-2. Action of The Board.

(A) In exercising its powers, the Sign Board of Appeals may amend, reverse or affirm, wholly or in part, or may modify the order, requirements, decision or determination appealed from and make such order, requirement, decision or determination in the Board's opinion as ought to be made. The Board shall have the power to impose reasonable conditions in order to assure compliance and protect adjacent property.

(B) The concurring vote of at least four members of the Board shall be necessary to reverse any order, requirement, decision or determination of the Building Official, or to decide in favor of the applicant in any matter upon which the Board is required to act under this subchapter or to cause any variance to this Code.

Sec. 7-3. Notice of Hearing before the Board.

(A) The Sign Board of Appeals shall hold a public hearing on all requests made to it. Notice shall be given by publishing the same in the official publication of the City at least ten days prior to the date set for the hearing, which notice shall state the time and place of the hearing.

(B) Before the tenth day before the date of the public hearing conducted by the Board, written notice of the public hearing shall be sent by its deposit in the United States mail to each owner, as indicated by the most recently approved municipal tax roll of property within 200 feet of the property on which the variance is proposed. The notice shall include a description of the time and place of such hearing, a description of the location of the subject property, and a description of the requested variance. In addition, the notice shall be published in the official newspaper of the City stating the time and place of such hearing, a minimum of ten days prior to the date of the public hearing.

(C) The Sign Board of Appeals shall also comply with the notice requirements of the Texas Open Meetings Act.

Sec. 7-4. Jurisdiction of the Board.

(A) When, in its judgment, the public convenience and welfare will be substantially served and the appropriate use of the neighboring property will not be substantially injured, the Sign Board of Appeals may, in specific cases, after public notice and hearing, and subject to appropriate conditions and safeguards, authorize the following variances to the regulations established by this ordinance and take action relative to the continuance or discontinuance of a nonconforming use as follows:

(1) Hear and decide appeals where it is alleged there is an error on any order, requirement, decision or determination made by the Building Official in the enforcement of this Code.

(2) Authorize the reconstruction of a nonconforming sign provided such reconstruction does not, in the judgment of the Board, increase the degree of nonconformity of the sign.

(3) Authorize such variance where the literal enforcement of the provisions of this Code would result in an unnecessary hardship, and where such variances are deemed necessary to permit a sign on a specific parcel of land which differs from other parcels of land in the same zoning district by being of such restricted area, shape or slope that a sign cannot be placed on the parcel in a manner commensurate with those signs permitted on other parcels of land in the same zoning district. The modification of the standards established in this Code shall

not be granted to relieve a self-created or personal hardship, not for financial reason alone, nor shall such modification be granted to permit any person a privilege in placing a sign on a parcel of land not permitted by this Code to other parcels of land in that district.

(4) Authorize a special exception for one off-site temporary directional ground sign for residential subdivisions. The sign shall be limited to 32 square feet in area, 20 feet in height and placed a minimum of 15 feet from any street abutting property lot lines. Such a sign shall be allowed only in case of a geographical hardship and for a specific time period, but no longer than 3 years.

(5) Authorize a special exception allowing a single business to include their company logo or name on a subdivision entry sign structure when the Board determines the following:

(a) That the granting of such special exception will be consistent with the general purpose and intent of this Code, and will serve the general welfare and preserve the community interest; and

(b) The request is for a minimum subdivision size of 100 acres; and

(c) A single logo or company name is limited to the permitted subdivision entry sign structures at only one main entrance to the subdivision; and

(d) The logo or name must be subordinate to the subdivision identification sign; and

(e) Any conditions that the Board believes are necessary to secure substantially the purpose and intent of this Code.

(6) Authorize a special exception allowing a business wall sign increased area when the Board determines the following:

(a) That the granting of such special exception will be consistent with the area's 19th and early 20th century small town Texas character in size, shape, style, color and content; and

(b) The wall sign is placed on a single tenant building with a minimum floor area of 4,000 square feet; and

(c) The maximum wall sign area authorized is 100 square feet; and

(d) The maximum number of wall signs with an area increase allowed is two per building, meeting the criteria of (b) above; and

(e) Any conditions that the Board believes are necessary to secure substantially the purpose and intent of this Code.

(7) Authorize a special exception allowing multiple lots to be considered as a single site in determining the maximum number of signs allowed, the maximum sign size, or determining whether the sign is an on-premise sign. The Board shall make the following findings:

(a) That the granting of such special exception will be consistent with the general purpose and intent of this Code, and will serve the general welfare and preserve the community interests; and

(b) At least one of the lots being considered is three acres or larger; and

(c) Freestanding signs serving individual lots on the multiple lot site are removed.

(B) No variance may be granted if the granting of that variance will create an unnecessary hardship upon another parcel of land. The Board is not authorized to grant a variance to any provision of the zoning district in which a sign is permitted. In order to make a finding of hardship and to grant a variance, the Board shall find:

(1) The requested variance does not eliminate any requirement of this Code and does not allow any prohibited signs or acts;

(2) The hardship is not in any way the result of the applicant's own action; and

(3) The hardship is peculiar to the property of the applicant and not due to the general conditions of the neighborhood.

Economic gain or loss shall never be sufficient grounds for the finding of a hardship or the granting of a variance.
