 - Craig Overstreet stated he has a problem with a contract being this many years because he feels they are curbing bids. He stated he believes other people should bid on the auditing services.

- Ben White stated he does believe we should compete it for a three year term. He stated it may be late to do it for this year, but we could conduct bids for next year.
- Alan Lathrom stated the way the contract is written it is for five – one year terms
- Mike Henry stated the Council should accept the contract at it is, but bid it for the next year.
- Jim Hemby would be fine with that as long as we go out for bids before May 31st of next year. He believes you have to bid out.
- Ben White stated we could ask Brooks & Watson to redo this contract for one year and then bid it out for the next year.
 - Motion by Mike Henry to make Brooks & Watson come back with a one year contract and for the city to conduct bids next year.
 - 2nd to approve was Terry Williams
 - All council members voted in favor

B. Consider, discuss and act upon an interlocal agreement with Collin County regarding jail services.

- Ben White stated the contract is for jail services that we see every year. He stated the cost actually went down this year. He said we could terminate the contract at any time with a 90 day written notice, and staff recommends approval of the ILA.
 - Motion to approve made by Mike Henry
 - 2nd to approve was Jim Hemby
 - All council members voted in favor

C. Consider, discuss and act upon pop-up vendors conducting business in the city limits.

- Ben White stated the item is not related to Health Services, it is related to ordinances that are in place within the city. He indicated that right now pop-up vendors and food trucks are not allowed in the city limits according to ordinances. We have allowed one previously using a solicitor's permit with a time limit attached to it. He explained the city has received complaints on the vendor outside of Hibbitt's Ice Cream. He wants to know if the Council wants to allow these in the city or not. Another thing that should be involved in this right now is an ice cream truck, because they are technically a vendor. He stated this would exclud special events such as Old Time Saturday. He said he has property owners who are trying to make a living within permanent structures and these pop-up vendors do take away from the established restaurants and businesses.

- Craig Overstreet wanted to know what other cities are doing in regards to this and he stated these vendors should be required to have insurance and other requirements. He feels they need to be grouped together and not scattered throughout the city.
- Dwain Mathers stated he does not want them scattered throughout the downtown and we need to have them in one location. He explained the city has to be specific with the rules.
- Mayor Wiebold stated that a lot of other cities have food court areas that are run by the city and the spots are leased.
- Terry Williams stated he would support something if they were all in one location.
- Mike Henry stated the city needed to take parking into consideration if the vendors were all in one location.
- Allison Mathers stated the city has a Main Street Program that is a national program. She said she would include the Main Street Board in the discussion.
- Elise Bobitt stated that all pop-ups are not food.
- Mayor Wiebold stated the direction would be to bring more information back to Council at a later date.
- Beverly Mondy stated they will only be a pop-up vendor in the summer months.
- Lisa Crowder stated she gets a lot of calls about this topic at the Chamber of Commerce. She stated it is confusing and a touchy subject. She indicated the city would need to take into consideration the pop-ups within the stores as well and that it should be consistent.
- Ben White stated staff would come back with more information.

D. Consider, discuss and act upon Resolution #R-2020-0714-001 directing calculation of voter-approval tax rate.

- Ben White said the state passed a law that placed a cap on cities limiting the tax rates. He said this resolution would be limited to one year and it takes the limit off of the city and puts the decision back to the City Council.
- Craig Overstreet asked what it would do for us budget wise.
- Ben White stated this would allow us to use the same process as we did last year.
- Daphne Hamlin stated that if we went up to 8% for a \$200,000 home that would bring in an extra \$66.00 per household. She believes our effective tax rate will go down some this year since our property value went up.
- Craig Overstreet stated he wanted to see something more concrete. He said that the sales taxes have stayed somewhat consistent. He feels that we have enough citizens that have lost jobs and he would like to see some numbers.
- Daphne Hamlin stated the county calculates the tax rates for us.
- Ben White stated we can present the 3.5% or the 8% as we go along.

- Mayor Wiebold stated the resolution is just saying we have to option to go higher this year.
- Jim Hemby stated this will allow us to hit a point at where we need to be.
 - Motion to approve made by Mike Henry
 - 2nd to approve was Jim Hemby
 - All council members voted in favor

E. Discussion regarding Thoroughfare Map and Bike Trail Map.

- Ben White introduced Jeff Whitaker from Kimley-Horn and stated they created the maps for the city. He stated the maps are a draft and they were funded by 4B. He explained there is a process the maps have to go through before they are approved. The maps take you to the eventual city limit boundaries. He indicated that he likes the two maps and they expand the city's vision for several years. He stated the city could run the maps by themselves through the public hearing process for approval, or they could wait and be approved along with the Comprehensive Plan.
- Mayor Wiebold asked if the maps would be the city's approval process of the alignment of U.S. Highway 380 with TxDOT.
- Ben White stated the property owners on the southern U.S. Highway 380 route did not have any issues with the city using the maps as planning instruments.
- Dwain Mathers asked about the approval process of the maps.
- Ben White stated the city hired a consultant, Kimley-Horn, and then it will be placed in front of the citizens for public for comments. The maps could change after obtaining citizen comments. He said the maps are a first draft and he wants to ensure the public and Council that the processes required by law will be followed.
- Dwain Mathers asked about a time line for approval. He stated that everyone needs to have a chance to put their eyes on the maps and give comments toward them.
- Mayor Wiebold stated the maps are really a statement of intent and they are a canvas that can be morphed.
- Dwain Mathers stated we have to have a specific time line and flow chart of when it is going to be presented and heard by the public.
- Ben White stated the faster process would be to take the maps through public hearings process before the Comprehensive Plan.
- Mike Henry stated he would like to review them separately from the Comprehensive Plan.

F. Consider, discuss and act upon the site plan and landscape plan for the Farmersville Restaurant located on the southeast corner of Farmersville Parkway and South Hamilton Street.

- Sandra Green explained the plat to this property was approved at a Council meeting a few weeks ago. She indicated that DBI Engineers had

reviewed the site plan and landscape plan and they had met all the conditions of approval. - Mayor Wiebold stated they conducted several more interviews for the open positions.

 - Jim Hemby made a 2nd to the motion
 - All members votes yes, except Mike Henry voted no.
- Dwain Mathers came back into the Council Chambers and joined the meeting.
- Dwain Mathers said he wanted to make a statement. He stated there was a new process of choosing candidates for the board. The new process was that the Mayor, the Council Liaison and the Board Chair would meet with the applications and interview them. After the interviews the Council liaison would make a recommendation to the City Council and it would be voted on. He feels the process did not work for the Main Street Board, since a few of the applicants wrote a letter to the Chairman of the Board and the Mayor and then were not placed on the board. He said they wrote a letter speaking out against another board member. He stated the way it was handled was undermining and took away the City Council votes. The two applicants that were disqualified were not reviewed again to sit on the board. He said the applicants should not have had to reapply to be considered for the board again. He indicated the way the Main Street Board was handled was not transparent.
- Jim Hemby stated they followed the process and trusted the process. They all voted on people by using recommendations from the Mayor, the Council liaison and the board Chairman.
- Mayor Wiebold stated there were applicants that stated during the interviews that they did not want to sit on the board if one board member remained. He said another applicant did not own a business or building downtown so she did not qualify for the board.
- Dwain Mathers asked why some applicants were not considered again once the one board member was removed from the board.
- Mayor Wiebold stated they opened up the application process again for a week and interviewed those that applied.
- Craig Overstreet stated that he would not, have not, and will not participate in a manipulative act.

 - 2nd to approve was Mike Henry
 - All council members voted in favor
 - Craig Overstreet wanted to know if Farmers & Fleas will be able to move forward.
 - Ben White stated they are recommending they not hold Farmers & Fleas in August.
- J. Consider, discuss and act upon accepting the possible conveyance of approximately 8.1 miles of the Northeast Texas Trail extending in a northern direction from the current end of the City's Chaparral Trail.
- Ben White stated there are some pros and cons for taking over this area of the trail. Taking this part of the trail would take it from behind the Bland schools in Merit to Celeste. He said the city crew would have to mow past J.W. Spain, but it would be our hope that we would be able to get grants to help improve it.
 - Mike Henry asked for clarification on the issue.
 - Mayor Wiebold stated this would just allow staff clear direction on whether Council wanted to move forward with more information and the future conveyance of the property.
 - Craig Overstreet stated he would want to know the liability issues, how it would be patrolled and how much it would cost to maintain. He would like to hear from the representative that is a liaison to the NETT before making a decision.
