

# 2012 Highway Map of KALKASKA COUNTY MICHIGAN

## Kalkaska History & Facts

Organized in 1871. Originally named Wabassee after a Potawatomi chief and in 1843, was changed to Kalkaska (uncertain origin). First settlers in 1885. Initially, heavily timbered for hardwood. Eighty-five lakes and two hundred, twenty-five miles of crystal clear streams make Kalkaska a leading recreational area for hunting, fishing and other outdoor activities with vast state owned properties. Kalkaska is the county seat with several small villages. As of the 1990 census, there was a population of 13,497. Kalkaska is the home of the International Sled Dog Races and the National Trout Festival.

## Snowmobiling

Snowmobiles may be operated on Kalkaska County roads only at the extreme right side of the road right-of-way, with the flow of traffic, in accordance with Public Act Number 178 of 1971. The road surface may be used when necessary to cross a bridge or culvert or to cross at a right angle to the road. Snowmobiles must come to a complete stop before entering the roadway and yield to approaching highway vehicles. Snowmobile operation on the roadway is illegal and obstructs snow removal operation.

## Seasonal Load and Speed Limits

Seasonal weight and speed reductions may be enforced during March, April and May on county roads. Maximum axle loads shall be reduced by 35 percent and shall not exceed 450 pounds per inch of the width. Travel speed limit is 35 MPH during seasonal restrictions. Complete information can be obtained from the Motor Carrier Division, Michigan State Police District Headquarters, Traverse City.

## Winter Parking Ordinance

The parking of motor vehicles is prohibited on public roads and road shoulders of Kalkaska County during the winter season, December 1 to March 31 of the following year, between the hours of 12:00 a.m. (midnight) and 8:00 a.m. during snow emergencies.

## Snow Removal onto Roadways or Highways

A person shall not remove or cause to be removed snow, ice or slush onto or across a roadway in a manner which obstructs the safety vision of the driver of a motor vehicle; or deposit or cause to be deposited snow, ice or slush on any roadway or highway. The Road Commission recommends residents keep the shoulder in front of their driveway clear and also clear snow for a short distance from the driveway in the direction of approaching traffic.

## Village of Kalkaska

The Village of Kalkaska has designated certain routes of travel for

snowmobiles within the Village. These routes are noted on the inset map. Snowmobiles must not exceed 15 MPH, stop at every intersection and travel on the extreme right of the plowed portion of the roadway going with the flow of traffic. All other state laws, rules and regulations are in effect.

## House and Building Numbering Ordinance

A county-wide street and road numbering system is established to provide a central point to issue and control numbering and to facilitate the address in times of police, fire or ambulance needs.

- Mailboxes shall have numbers not less than one (1) inches, reflective or contrasting in color. Groups of boxes must be in sequential order. If box is not on the same street as residence, it must have the assigned number and street name of the residence.
- Numbers on houses or buildings must contrast to the background and be three (3) inches or higher. The numbers must be plainly visible from the street.
- A post is required if your mailbox is not adjacent to your driveway or house numbers cannot be seen from the street. The post must be not less than six (6) feet above the level of the street, adjacent to your driveway. Your assigned premises numbers shall be placed on both sides of the post and plainly visible from either direction of approach and must be contrasting in color OR reflectorized and shall be three (3) inches in height or greater.
- If you do not know what your proper road number is, you should contact the Kalkaska County Equalization Office at (231) 922-4772.

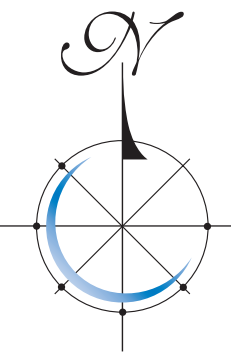

## Permits for Activities within the County Road Right-of-Way

In accordance with Act 200 of the Public Acts of 1969, any activity or use of county road right-of-way, other than for highway travel purposes, does require a permit from the Road Commission. A permit is required to build a new drive and/or reconstruct or pave an existing driveway. A completed driveway permit may be required before the Township will issue a land use permit. Permitted activities are: driveway construction, utility installation, seismographic exploration and oversized transport. Standard mailboxes are allowed without a permit in the road right-of-way. Permit applications, mailbox installation instructions and road right-of-way standards are available at the office. Activities which are not permitted are: fences, retaining walls, sprinkler systems, landscaping rocks, boulders or berms, filling existing drainage ditches or dumping debris, planting trees, shrubs or bushes that have the potential of obscuring vision and signs, light posts or encroachments considered hazardous by the Road Commission.

Your cooperation will help keep our roadways safe for vehicle traffic and reduce the future maintenance expense of our county road system.

In preparing this map, every effort has been made to accurately show the road system within Kalkaska County. This map is for information only. Contact the Road Commission to verify specific road information. Land ownership changes over time due to sales, land exchanges, etc. Check with the Forest Division of the Michigan Department of Natural Resources to be sure you are using public land. Please do not trespass on private property without the landowner's permission.
