## INDEPENDENT AUDITOR'S REPORT

To the Board of Supervisors  
Kandiyohi Soil and Water Conservation District  
Willmar, Minnesota

### Report on the Financial Statements

We have audited the accompanying financial statements of the governmental activities and the general fund of Kandiyohi Soil and Water Conservation District, Willmar, Minnesota, as of and for the year ended December 31, 2018, and the related notes to the financial statements, which collectively comprise Kandiyohi Soil and Water Conservation District's basic financial statements as listed in the table of contents.

### Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from misstatement, whether due to fraud or error.

### Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

## **Opinions**

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities and the general fund of Kandiyohi Soil and Water Conservation District as of December 31, 2018, and the respective changes in financial position for the governmental activities and the general fund for the year then ended in accordance with accounting principles generally accepted in the United States of America.

## **Other Matters**

### *Required Supplementary Information*

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis on pages 3-7, the budgetary comparison statement on page 22, and defined benefit pension plan schedules on page 23 be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

### **Other Reporting Required by *Government Auditing Standards***

In accordance with *Government Auditing Standards*, we have also issued our report dated September 16, 2019, on our consideration of the Kandiyohi Soil and Water Conservation District's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering Kandiyohi Soil and Water Conservation District's internal control over financial reporting and compliance.

**MANAGEMENT'S DISCUSSION AND ANALYSIS  
KANDIYOHI SOIL AND WATER CONSERVATION DISTRICT  
DECEMBER 31, 2018**

The Kandiyo Soil and Water Conservation District's discussion and analysis provides an overview of the District's financial activities for the fiscal year ended December 31, 2018. Since this information is designed to focus on the current year's activities, resulting changes, and currently known facts, it should be read in conjunction with the financial statements.

**USING THIS ANNUAL REPORT**

This annual report consists of three parts: management's discussion and analysis (this section), the basic financial statements, and required supplementary information. The basic financial statements include a series of financial statements. The Statement of Net Position and the Statement of Activities provide information about the activities of the District as a whole and present a longer-term view of the District's finances. For governmental activities, financial statements tell how services were financed in the short term as well as what remains for future spending. Fund financial statements also report the District's operations in more detail than the government-wide statements by providing information about the District's general fund. Since Districts are single-purpose special-purpose government units, the District combines the government-wide and fund financial statements into a single presentation.

**The Statement of Net Position and the Statement of Activities**

One of the most important questions asked about the District's finances is, "Is the District as a whole better or worse off as a result of the year's activities?" The Statement of Net Position and the Statement of Activities report information about the District as a whole and about its activities in a way that helps answer this question. These statements include all assets and liabilities using the accrual basis of accounting, which is similar to the accounting used by most private-sector companies. All of the current year's revenues and expenses are taken into account regardless of when cash is received or paid.

These two statements report the District's net position and changes in them. You can think of the District's net position — the difference between assets plus deferred outflows of resources and liabilities plus deferred inflows of resources — as one way to measure the District's financial health, or financial position. Over time, increases or decreases in the District's net position are one indicator of whether its financial health is improving or deteriorating. You will need to consider other non-financial factors, however, such as changes in the state and local governmental funding, to assess the overall health of the District.

In the Statement of Net Position and the Statement of Activities, the District presents governmental activities. All of the District's basic services are reported here. Appropriations from the county and state finance most activities.

**Reporting the District's General Fund**

Our analysis of the District's general fund is part of this report. The fund financial statements provide detailed information about the general fund—not the District as a whole. The District presents only a general fund, which is a governmental fund. All of the District's basic services are reported in the general fund, which focuses on how money flows into and out of the fund and the balances left at year-end that are available for spending. The fund is reported using an accounting method called modified accrual accounting.

This method measures cash and all other financial assets that can be readily converted to cash. The general fund statements provide a detailed short-term view of the District's general government operations and the basic services it provides. Governmental fund information helps you determine whether there are more or fewer financial resources that can be spent in the near future to finance the District's programs. We describe the relationship (or differences) between governmental activities (reported in the Statement of Net Position and the Statement of Activities) and governmental funds in a reconciliation included with the financial statements.

## THE DISTRICT AS A WHOLE

Our analysis focuses on the net position and change in net position of the District's governmental activities.

Net Position:

	<b>Governmental Activities</b>	
	<b>2018</b>	<b>2017</b>
Current Assets	\$ 354,242	\$ 496,641
Capital Assets, net of depreciation	99,576	92,328
Deferred Outflows of Resources	51,076	50,782
Combined Assets and Deferred Outflows of Resources	<u>\$ 504,894</u>	<u>\$ 639,751</u>
Current Liabilities	\$ 206,136	\$ 396,898
Long-Term Liabilities	180,568	184,976
Deferred Inflows of Resources	44,643	32,519
Combined Liabilities and Deferred Inflows of Resources	<u>\$ 431,347</u>	<u>\$ 614,393</u>
Investment in Capital Assets	\$ 99,576	\$ 92,328
Unrestricted	(26,029)	(66,970)
Total Net Position	<u>\$ 73,547</u>	<u>\$ 25,358</u>

Net position of the District's governmental activities increased by \$48,189. Unrestricted net position, the part of net position that can be used to finance day-to-day operations without constraints established by debt covenants, enabling legislation, or other legal requirements changed from \$(66,970) at December 31, 2017 to \$(26,029) at December 31, 2018.

Change in Net Position:

	<b>Governmental Activities</b>	
	<b>2018</b>	<b>2017</b>
<u>Revenues</u>		
Intergovernmental	\$ 411,984	\$ 373,960
Charges for Services	310,292	124,605
Interest Earnings	2,123	1,059
Miscellaneous	4,804	18,069
Total Revenues	<u>\$ 729,203</u>	<u>\$ 517,693</u>
<u>Expenses</u>		
Conservation	<u>\$ 681,014</u>	<u>\$ 540,203</u>
Total Expenses	<u>\$ 681,014</u>	<u>\$ 540,203</u>
Increase (decrease) in Net Position	<u>\$ 48,189</u>	<u>\$ (22,510)</u>

The District's total revenues increased by \$211,510. The total cost of programs and services increased by \$140,811.

The native grass seed program will be about the same in 2019 as the number of acres to seed will be comparative.

The District is very active in the Reinvest in Minnesota Program. The District will receive funds as projects are completed. The District will receive funds for plan development, construction design, and construction implementation. The ongoing activity with this program should continue to generate additional revenue for the District in the future.

There is currently a Conservation Reserve Enhancement Program (CREP) signup and the District will be receiving funds for plan development, construction design, and construction implementation as projects are approved.

The District will continue to participate in the Walk in Access program in 2019. There will be a grant agreement for this program for approximately \$250 per contract.

Personnel costs will increase in 2019 with employee step and cost of living raises and seasonal staff helping with seeding program.

### **Governmental Activities**

Revenues, including sale of trees, native prairie grass, and filter fabric, along with services for planting, seeding and installing filter fabric increased by \$185,687.

Approximately 21 percent of the District's funding was received from the County. State grants accounted for approximately 36 percent of the funding for the Cost Share Program, Cooperative Weed Management, Walk in Access Funds, Easement Delivery, Conservation Delivery, Minnesota Ag Water Quality Certification Program, Farm Bill Assistance, Kandi Creek, Local Capacity, Buffer Implementation and Wetland Services. The remaining 42 percent was generated from District service programs and 1 percent from interest and miscellaneous revenue.

The cost of all governmental activities this year was \$681,014 compared to \$540,203 last year, an increase of \$140,811. Taxpayers financed some of the expenses through County and State grants. In addition to the cost share funds that were spent, the landowner also contributes to the cost of these conservation projects. The District also partners with NRCS, FSA, USF&WS, DNR, Kandiyohi County, Sportsman groups, and Local Watersheds to fund cost share projects.

The largest programs of activities are:

- Reinvest in Minnesota/Wetlands Reserve Program (RIM/WRP)
- Continuous Conservation Reserve Program (CCRP)
- Conservation Reserve Program (CRP)
- Conservation Reserve Enhancement Program (CREP)
- Reinvest in Minnesota (RIM)
- State Cost Share
- Walk in Access (WIA)
- Service program for trees, native prairie grass and filter fabric

## **THE DISTRICT'S GENERAL FUND**

As the District completed the year, its general fund as presented in the balance sheet reported a fund balance of \$148,106, which is above last year's total of \$99,743.

### **General Fund Budgetary Highlights**

The actual charges to appropriations (expenditures) were \$217,766 above the final budgeted amounts. The most significant negative variance of \$133,309 occurred in District Project Expenditures. The most significant positive variance of \$107,110 occurred in State Revenue.

## **CAPITAL ASSETS & LONG-TERM LIABILITIES**

### **Capital Assets**

At the end of 2018, the District had \$99,576 invested in capital assets, including a storage shed, 3 vehicles, field equipment, 2 drills, trailers, computers and various office equipment. This amount represents a net increase (including additions and deletions) of \$7,248 from last year. The District doesn't have any major purchases scheduled for 2019, but plan to maintain storage building, vehicles and all other equipment.

### **Long-Term Liabilities**

At the end of 2018, the District had \$14,140 in accrued compensated absences and \$166,428 in Net Pension Liability. This compares to \$12,610 in 2017 for accrued compensated absences and \$172,366 in Net Pension Liability.

### **Economic Factors and Next Year's Budget and Rates**

The District's elected officials considered many factors when setting the 2019 budget. The County's level of funding will hopefully increase in 2019. State funding for General Services and the Cost Share Programs has remained the same as last year. Employee's wages will increase due to step increases and cost of living raises in 2019.

Additional State grants will be received in 2019 for Local Capacity and Buffer Implementation.

The native grass seed program for 2019 will be consistent with 2018 as the number of acres will be about the same.

Competitive grants are available to apply for to secure funding for a variety of programs. The District will continue to apply for these competitive grants.

It is important to continue searching and applying for grants to help fund cost share conservation projects in the county.

## **CONTACTING THE DISTRICT'S FINANCIAL MANAGEMENT**

This financial report is designed to provide our citizens, customers and creditors with a general overview of the District's finances and to show the District's accountability for the money it receives. If you have questions about this report or need additional financial information, contact the Kandiyohi Soil and Water Conservation District at 1005 High Ave NE, Willmar, MN 56201. The phone number is 320-235-3906. This information can also be found on the website, <http://www.kandiyohiswcd.org>

**KANDIYOHI SOIL AND WATER CONSERVATION DISTRICT  
NOTES TO THE FINANCIAL STATEMENTS  
DECEMBER 31, 2018**

**Note 1 – Summary of Significant Accounting Policies**

The financial reporting policies of the Kandiyohi Soil and Water Conservation District conform to generally accepted accounting principles. The Governmental Accounting Standards Board (GASB) is responsible for establishing GAAP for state and local governments through its pronouncements (statements and interpretations).

**Financial Reporting Entity**

The Kandiyohi Soil and Water Conservation District is organized under the provisions of Minnesota Statutes Chapter 103C. The District is governed by a Board of Supervisors composed of five members nominated by voters of the District and elected to four-year terms by the voters of the County.

The purpose of the District is to assist land occupiers in applying practices for the conservation of soil and water resources. These practices are intended to control wind and water erosion, pollution of lakes and streams, and damage to wetlands and wildlife habitats.

The District provides technical and financial assistance to individuals, groups, districts, and governments in reducing costly waste of soil and water resulting from soil erosion, sedimentation, pollution and improper land use.

Each fiscal year the District develops a work plan which is used as a guide in using resources effectively to provide maximum conservation of all lands within its boundaries. The work plan includes guidelines for employees and technicians to follow in order to achieve the District's objectives.

Generally accepted accounting principles require that the financial reporting entity include the primary government and component units for which the primary government is financially accountable. Under these principles the District does not have any component units.

**Government-Wide Financial Statements**

The government-wide financial statements (i.e. The Statement of Net Position and The Statement of Activities) report information on all of the nonfiduciary activities of the District.

The Statement of Activities demonstrates the degree to which the direct expenses of a given function or segment are offset by program revenues. Direct expenses are those that are clearly identifiable with a specific function.

The government-wide financial statements are reported using the economic resources measurement focus and the accrual basis of accounting. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of cash flows. Grants and similar items are recognized as revenues as soon as all eligibility requirements imposed by the provider have been met.

**Fund Financial Statements**

The government reports the General Fund as its only major governmental fund. The general fund accounts for all financial resources of the government.

**KANDIYOHI SOIL AND WATER CONSERVATION DISTRICT  
NOTES TO THE FINANCIAL STATEMENTS  
DECEMBER 31, 2018**

Governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be available when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the District considers all revenues, except reimbursement grants, to be available if they are collected within 60 days of the end of the current fiscal period.

Reimbursement grants are considered available if they are collected within one year of the end of the current fiscal period. Expenditures are recorded when a liability is incurred under accrual accounting.

Intergovernmental revenues are reported in conformity with the legal and contractual requirements of the individual programs. Generally, grant revenues are recognized when the corresponding expenditures are incurred.

Interest earnings are recognized when earned. Other revenues are recognized when they are received in cash because they usually are not measurable until then.

In accordance with Governmental Accounting Standards Board Statement No. 33, *Accounting and Financial Reporting for Nonexchange Transactions*, revenues for nonexchange transactions are recognized based on the principal characteristics of the revenue. Exchange transactions are recognized as revenue when the exchange occurs.

**Budget Information**

The District adopts an estimated revenues and expenditures budget for the general fund. Comparisons of estimated revenues and budgeted expenditures to actual are presented in the financial statements in accordance with generally accepted accounting principles. Amendments to the original budget require Board approval. Appropriations lapse at year-end. The District does not use encumbrance accounting.

**Use of Estimates**

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions which affect: the reported amounts of assets and liabilities, the disclosure of contingent assets and liabilities at the date of the financial statements, and the reported amounts of revenues and expenditures during the reporting period. Actual results could differ from those estimates.

**Assets, Deferred Outflows of Resources, Liabilities, Deferred Inflows of Resources, and Net Position**

**Assets**

Cash is stated at fair value, except for non-negotiable certificates of deposit, which are on a cost basis and short-term money market investments, which are stated at amortized cost.

Receivables are collectible within one year.

**KANDIYOHI SOIL AND WATER CONSERVATION DISTRICT  
NOTES TO THE FINANCIAL STATEMENTS  
DECEMBER 31, 2018**

Capital assets are reported on a net (depreciated) basis. General capital assets are valued at historical or estimated historical cost.

Unearned Revenue

Governmental funds and government-wide financial statements report unearned revenue in connection with resources that have been received, but not yet earned.

Long-Term Liabilities

Compensated Absences and Net Pension Liability are accounted for as an adjustment to net position.

Classification of Net Position

Net position in the government-wide financial statements is classified in the following categories:

Investment in capital assets – the amount of net position representing capital assets net of accumulated depreciation.

Restricted net position – the amount of net position for which external restrictions have been imposed by creditors, grantors, contributors, or laws or regulations of other governments; and restrictions imposed by law through constitutional provisions or enabling legislation.

Unrestricted net position – the amount of net position that does not meet the definition of restricted or investment in capital assets.

Deferred Outflows/Inflows of Resources

In addition to assets, the statement of financial position will sometimes report a separate section for deferred outflows of resources. This separate financial statement element, deferred outflows of resources, represents a consumption of net position that applies to a future period(s) and so will not be recognized as an outflow of resources (expense/expenditure) until then. Currently, the District has only one item that qualifies for reporting in this category, deferred amounts related to their pension obligations. The length of the expense recognition period for deferred amounts is equal to the average of the expected remaining service lives of all employees that are provided with pensions through the pension plan, determined as of the beginning of the measurement period.

In addition to liabilities, the statement of financial position will sometimes report a separate section for deferred inflows of resources. This separate financial statement element, deferred inflows of resources, represents an acquisition of net position that applies to a future period(s) and so will not be recognized as an inflow of resources (revenue) until that time. The District has only one type of item that qualifies for reporting in this category, amounts related to their pension obligations. These deferred amounts represent differences between projected and actual earnings on pension plan investments and are recognized over a five-year period. They also include differences between expected and actual experience, changes in assumptions and changes in proportion, which are recognized over a four-year period.

Pensions

For purposes of measuring the net pension liability, deferred outflows/inflows of resources, and pension expense, information about the fiduciary net position of the Public Employees Retirement Association

**KANDIYOHI SOIL AND WATER CONSERVATION DISTRICT  
NOTES TO THE FINANCIAL STATEMENTS  
DECEMBER 31, 2018**

(PERA) and additions to/deductions from PERA's fiduciary net position have been determined on the same basis as they are reported by PERA, except that PERA's fiscal year end is June 30. For this purpose, plan contributions are recognized as of employer payroll paid dates and benefit payments and refunds are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

Classifications of Fund Balances

Fund balance is divided into five classifications based primarily on the extent to which the District is bound to observe constraints imposed upon the use of the resources in the General Fund. The classifications are as follows:

Nonspendable – the non-spendable fund balance category includes amounts that cannot be spent because they are not in spendable form or are legally or contractually required to be maintained intact. The “not in spendable form” criterion includes items that are not expected to be converted to cash.

Restricted – fund balance is reported as restricted when constraints placed on the use of resources are either externally imposed by creditors (such as through debt covenants), grantors, contributors, or laws or regulations of other governments; or are imposed by law through constitutional provisions or enabling legislation.

Committed – the committed fund balance classification includes amounts that can be used only for the specific purposes imposed by formal action (resolution) of the Board. Those committed amounts cannot be used for any other purposes unless the Board removes or changes the specified use by taking the same type of action (resolution) it employed to previously commit those amounts.

Assigned – amounts in the assigned fund balance classification the District intends to use for specific purposes that do not meet the criteria to be classified as restricted or committed. In the General Fund, assigned amounts represent intended uses established by the Board or the Board Administrator who has been delegated that authority by Board resolution.

Unassigned – Unassigned fund balance is the residual classification for the general fund and includes all spendable amounts not contained in the other fund balance classifications.

The District applies restricted resources first when expenditures are incurred for purposes for which either restricted or unrestricted (committed, assigned, and unassigned) amounts are available. Similarly, within unrestricted fund balance, committed amounts are reduced first followed by assigned, and then unassigned amounts when expenditures are incurred for purposes for which amounts in any of the restricted fund balance classifications could be used.

Subsequent Events

In preparing these financial statements, the District has evaluated events and transactions for potential recognition or disclosure through September 16, 2019, the date the financial statements were available to be issued.

**KANDIYOHI SOIL AND WATER CONSERVATION DISTRICT  
NOTES TO THE FINANCIAL STATEMENTS  
DECEMBER 31, 2018**

Explanation of Adjustments Column in Statements

Capital Assets: In the Statement of Net Position and Governmental Fund Balance Sheet, an adjustment is made if the District has capital assets. This adjustment equals the net book balance of capitalized assets as of the report date and reconciles to the amount reported in the Capital Assets Note.

Long-Term Liabilities: In the Statement of Net Position and Governmental Fund Balance Sheet, an adjustment is made to reflect the total Compensated Absences and Net Pension Liability the District has as of the report date. See note on Long-Term Liabilities.

Depreciation, Net Pension Expense and Change in Compensated Absences for the year:  
In the Statement of Activities and Governmental Fund Revenues, Expenditures and Changes in Fund Balance, the adjustment equals the total depreciation for the year reported, plus or minus the net pension expense and the change in compensated absences between the reporting year and the previous year.

Vacation and Sick Leave

Under the District's personnel policies, employees are granted vacation leave in varying amounts based on their length of service. Vacation leave accrual varies from 8 to 14 hours per month. Sick leave accrual is 8 hours per month. The limit on the accumulation of vacation leave is 180 hours and the limit on the accumulation of sick leave is 920 hours. Upon termination of employment from the District, employees are only paid accrued vacation leave.

Risk Management

The District is exposed to various risks of loss related to tort; theft of, damage to, and destruction of assets; errors and omissions; injuries to employees; workers' compensation claims; and natural disasters. Property and casualty liabilities and workers' compensation are insured through Minnesota Counties Intergovernmental Trust. The District retains risk for the deductible portion of the insurance. The amounts of these deductibles are considered immaterial to the financial statements.

The Minnesota Counties Intergovernmental Trust is a public entity risk pool currently operated as a common risk management and insurance program for its members. The District pays an annual premium based on its annual payroll. There were no significant increases or reductions in insurance from the previous year or settlements in excess of insurance coverage for any of the past three fiscal years.

Equipment	126,476	23,859	17,200	133,135
Total Building & Equipment	\$ 267,870			\$ 274,529
Less: Accumulated Depreciation	175,542	16,611	17,200	174,953
Net Capital Assets	<u>\$ 92,328</u>			<u>\$ 99,576</u>

The cost of property and equipment is depreciated over the estimated useful lives of the related assets. Leasehold improvements are depreciated over the lesser of the term of the related lease or the estimated useful lives of the assets. Depreciation is computed on the straight-line method. For the purpose of computing depreciation, the useful life for Building is 40 years and Machinery and Equipment is 5 to 10 years. Current year depreciation is \$16,611.

The District uses the threshold of \$1,000 for capitalizing assets purchased.

Unearned Revenue

Unearned revenue represents unearned advances from the Minnesota Board of Water and Soil Resources (BWSR) for administrative service grants and for the cost-share program. Revenues will be recognized when the related program expenditures are recorded. Unearned revenue for the year ended December 31, 2018, consists of the following: BWSR Kandi Creek \$37,411; BWSR State Cost Share \$14,696; Buffer Implementation \$648; County Water Fund \$3,000; Conservation Delivery \$18,578; Buffer Cost Share \$42,248; Local Capacity \$84,486; Total \$201,067.

Long-Term Liabilities

Changes in long-term liabilities for the period ended December 31, 2018 are:

	<u>January 1, 2018</u>	<u>Increases</u>	<u>Decreases</u>	<u>December 31, 2018</u>
Net Pension Liability	\$ 172,366	\$ -	\$ 5,938	\$ 166,428
Compensated Absences	12,610	1,530	-	14,140
Total	<u>\$ 184,976</u>	<u>\$ 1,530</u>	<u>\$ 5,938</u>	<u>\$ 180,568</u>

Deposits

Minnesota Statutes 118A.02 and 118A.04 authorize the District to designate a depository for public funds and to invest in certificates of deposit. Minnesota Statute 118A.03 requires that all District deposits be protected by insurance, surety bond, or collateral. When not covered by insurance or surety bonds, the market value of collateral pledged shall be at least ten percent more than the amount on deposit (plus accrued interest) at the close of the financial institution's banking day.

**KANDIYOHI SOIL AND WATER CONSERVATION DISTRICT  
NOTES TO THE FINANCIAL STATEMENTS  
DECEMBER 31, 2018**

Authorized collateral includes treasury bills, notes and bonds; issues of U.S. government agencies; general obligations rated "A" or better; revenue obligations rated "AA" or better; irrevocable standard letters of credit issued by the Federal Home Loan Bank; and certificates of deposit. Minnesota Statutes require that securities pledged as collateral be held in safekeeping in a restricted account at the Federal Reserve Bank or in an account at a trust department of a commercial bank or other financial institution that is not owned or controlled by the financial institution furnishing the collateral.

**Custodial Credit Risk Deposits**

Custodial credit risk is the risk that in the event of a financial institution failure, the District's deposits may not be returned to it. The District does not have a deposit policy for custodial credit risk. As of December 31, 2018, the District's deposits were not exposed to custodial credit risk.

**Note 3 – Defined Benefit Pension Plan**

**Plan Description**

The District participates in the following cost-sharing multiple-employer defined benefit pension plan administered by the Public Employees Retirement Association of Minnesota (PERA). PERA's defined benefit pension plans are established and administered in accordance with Minnesota Statutes, Chapters 353 and 356. PERA's defined benefit pension plans are tax qualified plans under Section 401 (a) of the Internal Revenue Code.

All full-time and certain part-time employees of the District are covered by the General Employees Plan. General Employees Plan members belong to the Coordinated Plan. Coordinated Plan members are covered by Social Security.

**Benefits Provided**

PERA provides retirement, disability, and death benefits. Benefit provisions are established by state statute and can only be modified by the state legislature. Vested, terminated employees who are entitled to benefits, but are not receiving them yet, are bound by the provisions in effect at the time they last terminated their public service.

General Employees Plan benefits are based on a member's highest average salary for any five successive years of allowable service, age, and years of credit at termination of service. Two methods are used to compute benefits for PERA's Coordinated Plan members. Members hired prior to July 1, 1989, receive the higher of Method 1 or Method 2 formulas. Only Method 2 is used for members hired after June 30, 1989. Under Method 1, the accrual rate for Coordinated members is 1.2 percent of average salary for each of the first ten years of service and 1.7 percent of average salary for each additional year. Under Method 2, the accrual rate for Coordinated members is 1.7 percent of average salary for all years of service. For members hired prior to July 1, 1989, a full annuity is available when age plus years of service equal 90 and normal retirement age is 65. For members hired on or after July 1, 1989, normal retirement age is the age for unreduced Social Security benefits capped at 66.

Benefit increases are provided to benefit recipients each January. Increases are related to the funding ratio of the plan. If the General Employees Plan is at least 90 percent funded for two consecutive years, benefit recipients are given a 2.5 percent increase. If the plan has not exceeded 90 percent funded, or has fallen below 80 percent, benefit recipients are given a one percent increase. A benefit recipient who has been receiving a benefit for at least 12 full months as of June 30, will receive a full increase. Members

**KANDIYOHI SOIL AND WATER CONSERVATION DISTRICT  
NOTES TO THE FINANCIAL STATEMENTS  
DECEMBER 31, 2018**

receiving benefits for at least one month but less than 12 full months as of June 30, will receive a pro rata increase.

Contributions

Minnesota Statutes Chapter 353 sets the rates for employer and employee contributions. Contribution rates can only be modified by the state legislature.

Coordinated Plan members were required to contribute 6.50 percent of their annual covered salary in fiscal year 2018 and the District was required to contribute 7.50 percent for Coordinated Plan members. The District's contributions to the General Employees Fund for the year ended December 31, 2018, were \$15,447. The District's contributions were equal to the required contributions as set by state statute.

Pension Costs

At December 31, 2018, the District reported a liability of \$166,428 for its proportionate share of the General Employees Fund's net pension liability. The District's net pension liability reflected a reduction due to the State of Minnesota's contribution of \$16 million to the fund in 2018. The State of Minnesota is considered a non-employer contributing entity and the State's contribution meets the definition of a special funding situation. The State of Minnesota's proportionate share of the net pension liability associated with the District totaled \$5,462. The net pension liability was measured as of June 30, 2018, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of that date. The District's proportionate share of the net pension liability was based on the District's contributions received by PERA during the measurement period for employer payroll paid dates from July 1, 2017 through June 30, 2018, relative to the total employer contributions received from all of PERA's participating employers. At June 30, 2018, the District's proportionate share was 0.0030 percent, which was an increase of 0.0003 percent from its proportionate share measured as of June 30, 2017.

The District's proportionate share of the net pension liability	\$	166,428
State of Minnesota's proportionate share of the net pension liability associated with the District		5,462
Total	\$	171,890

For the year ended December 31, 2018, the District recognized pension expense of \$5,892 for its proportionate share of the General Employees Plan's pension expense. In addition, the District recognized an additional \$1,274 as pension expense (and grant revenue) for its proportionate share of the State of Minnesota's contribution of \$16 million to the General Employees Fund.

**KANDIYOHI SOIL AND WATER CONSERVATION DISTRICT  
NOTES TO THE FINANCIAL STATEMENTS  
DECEMBER 31, 2018**

Pension Costs (continued)

At December 31, 2018, the District reported its proportionate share of the General Employees Plan's deferred outflows of resources and deferred inflows of resources from the following sources:

	Deferred Outflows of Resources	Deferred Inflows of Resources
Differences between expected and actual economic experience	\$ 4,268	\$ 4,045
Changes in actuarial assumptions	14,920	17,420
Difference between projected and actual investment earnings	-	21,940
Changes in Proportion	24,219	1,238
Contributions paid to PERA subsequent to the measurement date	7,669	-
Total	\$ 51,076	\$ 44,643

The \$7,669 reported as deferred outflows of resources related to pensions resulting from District contributions subsequent to the measurement date will be recognized as a reduction of the net pension liability in the year ended December 31, 2019. Other amounts reported as deferred outflows and inflows of resources related to pensions will be recognized in pension expense as follows:

Year ended December 31:	Pension Expense Amount	
2019	\$	10,956
2020		(198)
2021		(7,375)
2022		(4,619)

Actuarial Assumptions

The total pension liability in the June 30, 2018, actuarial valuation was determined using an individual entry-age normal actuarial cost method and the following actuarial assumptions:

Inflation	2.50 percent per year
Active Member Payroll Growth	3.25 percent per year
Investment Rate of Return	7.50 percent

Salary increases were based on a service-related table. Mortality rates for active members, retirees, survivors and disabilitants were based on RP 2014 tables for males or females, as appropriate, with slight adjustments to fit PERA's experience. Cost of living benefit increases after retirement for retirees are assumed to be 1.25 percent per year for the General Employees Plan.

**KANDIYOHI SOIL AND WATER CONSERVATION DISTRICT  
NOTES TO THE FINANCIAL STATEMENTS  
DECEMBER 31, 2018**

Actuarial assumptions used in the June 30, 2018 valuation were based on the results of actuarial experience studies. The most recent six-year experience study in the General Employees Plan was completed in 2015. Economic assumptions were updated in 2017 based on a review of inflation and investment return assumptions.

The following changes in actuarial assumptions occurred in 2018:

- The mortality projection scale was changed from MP-2015 to MP-2017.
- The assumed post-retirement benefit increase rate was changed from 1.0 percent per year through 2044 and 2.50 percent per year thereafter to 1.25 percent per year.

The State Board of Investment, which manages the investments of PERA, prepares an analysis of the reasonableness on a regular basis of the long-term expected rate of return using a building-block method in which best-estimate ranges of expected future rates of return are developed for each major asset class. These ranges are combined to produce an expected long-term rate of return by weighting the expected future rates of return by the target asset allocation percentages. The target allocation and best estimates of geometric real rates of return for each major asset class are summarized in the following table:

Asset Class	Target Allocation (%)	Long-Term Expected Real Rate of Return (%)
Domestic Stocks	36	5.10
International Stocks	17	5.30
Bonds	20	0.75
Alternative Assets	25	5.90
Cash	2	0.00
Total	100%	

Discount Rate

The discount rate used to measure the total pension liability in 2018 was 7.50 percent. The projection of cash flows used to determine the discount rate assumed that contributions from plan members and employers will be made at the rates set in Minnesota Statutes. Based on these assumptions, the fiduciary net position of the General Employees Fund was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all projected benefit payments to determine the total pension liability.

**KANDIYOHI SOIL AND WATER CONSERVATION DISTRICT  
NOTES TO THE FINANCIAL STATEMENTS  
DECEMBER 31, 2018**

Pension Liability Sensitivity

The following presents the District's proportionate share of the net pension liability for all plans it participates in, calculated using the discount rate disclosed in the preceding paragraph, as well as what the District's proportionate share of the net pension liability would be if it were calculated using a discount rate 1 percentage point lower or 1 percentage point higher than the current discount rate:

	1% Decrease in Discount Rate (6.5%)	Discount Rate (7.5%)	1% Increase in Discount Rate (8.5%)
District's proportionate share of the GERS net pension liability:	\$ 270,466	\$ 166,428	\$ 80,547

Pension Plan Fiduciary Net Position

Detailed information about each pension plan's fiduciary net position is available in a separately-issued PERA financial report that includes financial statements and required supplementary information. That report may be obtained on the Internet at [www.mnpera.org](http://www.mnpera.org).

**Note 4 – Operating Leases**

The District leases office space on a yearly basis. Under the current agreement total costs for 2018 were \$9,331.

**Note 5 – Stewardship, Compliance and Accountability**

Excess of expenditures over budget – The General Fund had expenditures in excess of budget for the year as follows: Expenditures \$679,566; Budget \$461,800; Excess \$217,766.

**Note 6 – Commitments and Contingencies**

The District is not aware of any existing or pending lawsuits, claims or other actions in which the District is a defendant.

## INDEPENDENT AUDITOR'S REPORT ON MINNESOTA LEGAL COMPLIANCE

To the Board of Supervisors  
Kandiyohi Soil and Water Conservation District  
Willmar, Minnesota

We have audited, in accordance with auditing standards generally accepted in the United States of America, and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States the financial statements of the governmental activities and the general fund of Kandiyohi Soil and Water Conservation District of Willmar, Minnesota, as of and for the year ended December 31, 2018, and the related notes to the financial statements, which collectively comprise the Kandiyohi Soil and Water Conservation District's basic financial statements, and have issued our report thereon dated September 16, 2019.

The *Minnesota Legal Compliance Audit Guide for Political Subdivisions*, promulgated by the State Auditor pursuant to Minnesota Statutes 6.65, contains six categories of compliance to be tested: contracting and bidding, deposits and investments, conflicts of interest, claims and disbursements, miscellaneous provisions, and tax increment financing. Our audit considered all of the listed categories, except that we did not test for compliance with the provisions for tax increment financing because the District is not allowed to collect taxes.

In connection with our audit, nothing came to our attention that caused us to believe that the Kandiyohi Soil and Water Conservation District failed to comply with the provisions of the *Minnesota Legal Compliance Audit Guide for Other Political Subdivisions*. However, our audit was not directed primarily toward obtaining the knowledge of such noncompliance. Accordingly, had we performed additional procedures; other matters may have come to our attention regarding the Kandiyohi Soil and Water Conservation District's noncompliance with the above referenced provisions.

The purpose of this report is solely to describe the scope of our testing of compliance and the results of that testing, and not to provide an opinion on compliance. Accordingly, this communication is not suitable for any other purpose.

**INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL OVER  
FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS  
BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED  
IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS**

To the Board of Supervisors  
Kandiyohi Soil and Water Conservation District  
Willmar, Minnesota

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the governmental activities and the general fund of Kandiyohi Soil and Water Conservation District, Willmar, Minnesota, as of and for the year ended December 31, 2018, and the related notes to the financial statements, which collectively comprise Kandiyohi Soil and Water Conservation District's basic financial statements, and have issued our report thereon dated September 16, 2019.

### **Internal Control Over Financial Reporting**

In planning and performing our audit of the financial statements, we considered Kandiyohi Soil and Water Conservation District's internal control over financial reporting to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of Kandiyohi Soil and Water Conservation District's internal control over financial reporting. Accordingly, we do not express an opinion on the effectiveness of Kandiyohi Soil and Water Conservation District's internal control over financial reporting.

A deficiency in internal control over financial reporting exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A material weakness is a deficiency, or combination of deficiencies, in internal control over financial reporting such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented or detected and corrected on a timely basis.

A significant deficiency is a deficiency, or a combination of deficiencies, in internal control over financial reporting that is less severe than a material weakness, yet important enough to merit attention by those charged with governance. We consider the deficiency in internal control as described in the accompanying Schedule of Findings and Responses as item 2018-001 to be a significant deficiency.

Our consideration of internal control over financial reporting was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over financial reporting that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control over financial reporting that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

## **Compliance and Other Matters**

As part of obtaining reasonable assurance about whether Kandiyohi Soil and Water Conservation District's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

## **Kandiyohi Soil and Water Conservation District's Response to Findings**

Kandiyohi Soil and Water Conservation District's response to the findings identified in our audit is described in the accompanying Schedule of Findings and Responses. The Kandiyohi Soil and Water Conservation District's response was not subjected to the auditing procedures applied in the audit of the financial statements and, accordingly, we express no opinion on it.

## **Purpose of this Report**

The purpose of this report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control over financial reporting or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

**KANDIYOHI SOIL AND WATER CONSERVATION DISTRICT  
SCHEDULE OF FINDINGS AND RESPONSES  
DECEMBER 31, 2018**

**2018-001 Segregation of Duties**

Criteria: Generally, a system of internal control contemplates separation of duties such that no individual has responsibility to execute a transaction, has physical access to the related assets, and has responsibility or authority to record the transaction.

Condition: Substantially all accounting procedures are performed by one person.

Cause: This condition is common to organizations of this size due to the limited number of staff.

Effect: The lack of an ideal segregation of duties subjects the District to higher risk that errors or fraud could occur and not be detected in a timely manner.

Recommendation: Any modification of internal controls in this area must be viewed from a cost/benefit perspective.

Management Response: The District has adequate policies and procedures in place to compensate for the lack of segregation of duties, including having all disbursements approved by the Board of Supervisors.
