

To all the Dads and  
Father Figures of  
Lowry Crossing. We  
celebrate you today  
and everyday!

### SUMMER SOLSTICE FACTS

#### Did you know?

1. Mars also has solstices!
2. The date changes every year, between June 20th and June 22nd
3. It is not the longest day of the year, just the day with the most sunlight. Sunlight strikes places in your home that get illuminated at no other time!

**Remember to protect yourself and your family this summer!**

Wearing SPF 15+ sunscreen before heading outside can reduce your chances of skin cancer by 40-50%.

**Be sure to reapply regularly!**
