### Please circle one answer for each of the following four requests for information:

1. I want to be contacted by: **Phone**      **Email**      **Text**  
2. I am the:      **Homeowner**      **Renter/Tenant**

(where the wall and pipe meet)

- Galvanized: A dull, silver-gray color. Use a magnet - strong magnets will typically cling to galvanized pipes.
- Copper: The color of a copper penny.
- Plastic: Usually white, rigid pipe that is jointed to water supply piping with a clamp. Note: It can be other colors, including blue and black.
- Lead: A dull, silver-gray color that is easily scratched with a coin. Use a magnet - strong magnets will not cling to lead pipes.

Please use the pictures and information above to help answer the following questions:

3. My water service line pipe material is likely:  
**Galvanized Steel**      **Copper**      **Plastic**      **Lead**      **Other:** \_\_\_\_\_
