IFMAP/GAP Lower Peninsula Land Cover, 2001
Land cover data for the Lower Peninsula of Michigan derived
from classification of Landsat Thematic Mapper (TM) imagery.
Image dates between 1997-2001 were used to identify
land cover classes. Imagery from three seasons was used in
the classification: Spring (leaf-off), Summer, and Fall
(Senescence).

Data Originators:

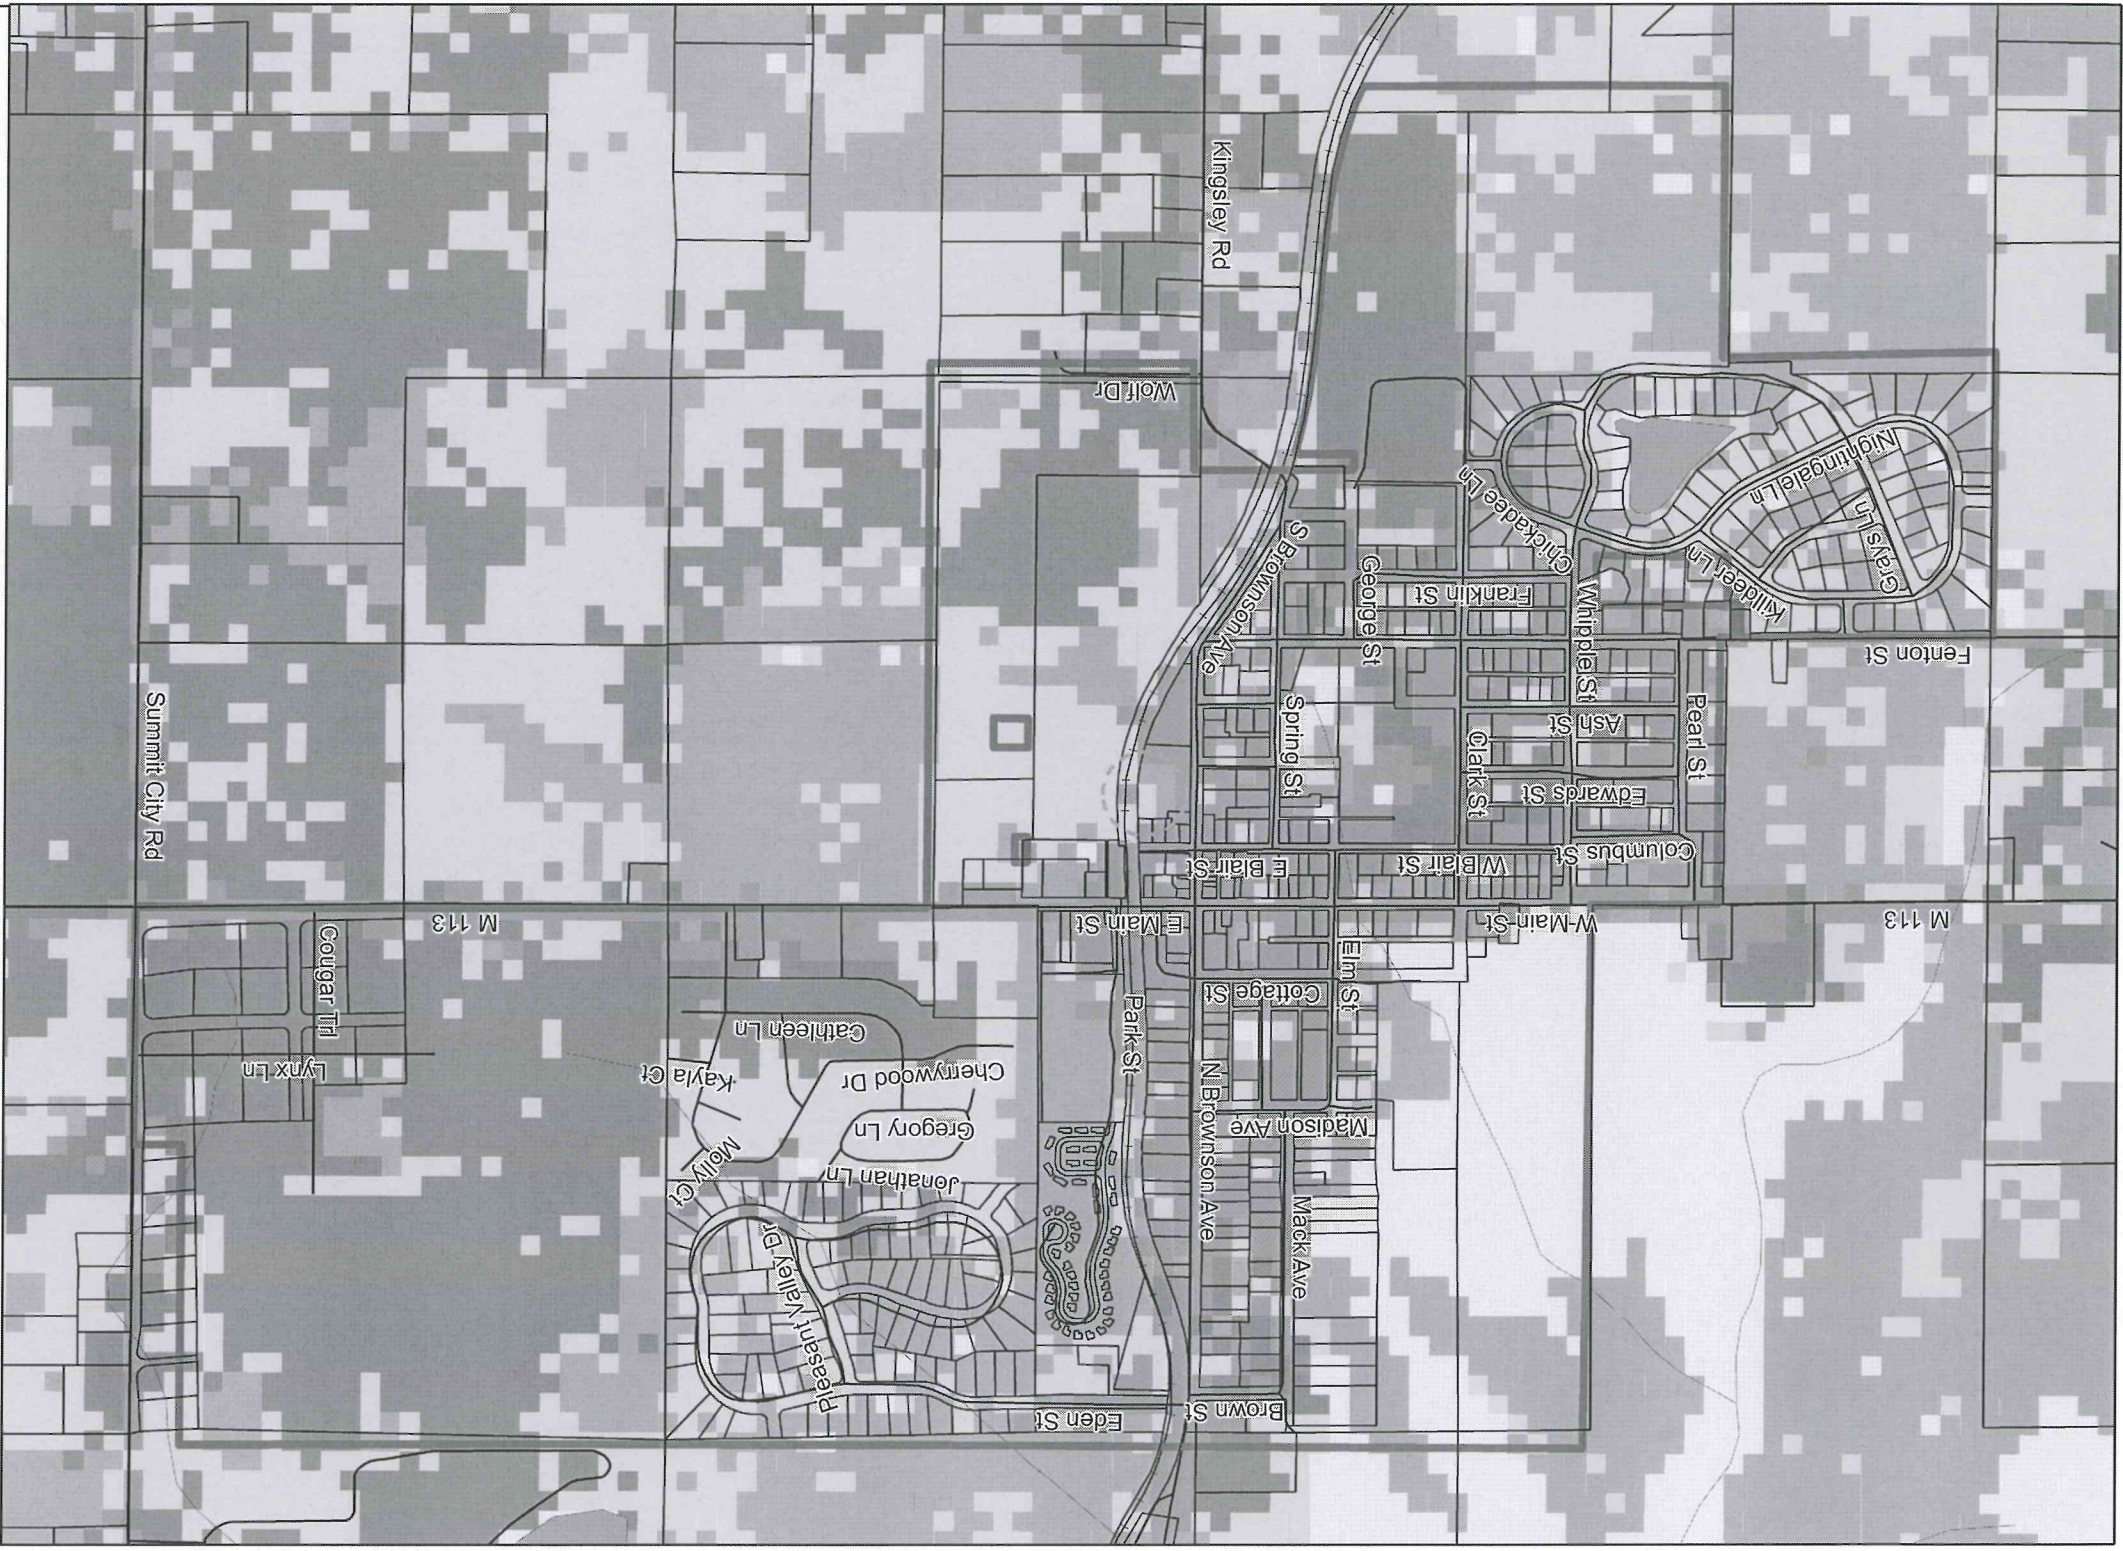

MDNR, Forest, Mineral and Fire Management Division
