### **Topics of Discussion**

- The Echo is back and running wonderfully. Charlevoix Auto replaced the engine, brake pads and rotors all around, radiator, battery, intake manifold, and some other odds and ends. The bill has been given to Rick. Total cost for the repairs \$11,132.05
- Chris is completing his orientation this week and will be given the ok by our Med Control to run on his own starting next week. We will be starting a vehicle maintenance schedule next week and make plans for future community CPR classes. At this time, he is still looking for housing on the island and hopes to move his family here as soon as possible. We are very happy to have him apart of BIEMS.
- The Instructor Coordinator classes are going well. Both Chris and I will be done with our student teaching section around September. We plan to put on our first EMT class this fall/winter with many more classes to come.
