

## Invasive Species

The Conservation Commission encourages Sandwich residents and visitors to learn the characteristics and control of invasive species that pose a threat to native species in our town. The following New Hampshire Department of Agriculture website contains a wealth of information on both plant and insect invasives of concern across the state:

<https://www.agriculture.nh.gov/publications-forms/plant-industry.htm>

Below are links to documents, from this website, on specific invasive plant species found throughout Sandwich, and that were distributed by the Commission at the 2018 Town Meeting:

Japanese knotweed: <https://www.agriculture.nh.gov/publications-forms/documents/japanese-knotweed.pdf>

Japanese barberry: <https://www.agriculture.nh.gov/publications-forms/documents/japanese-barberry.pdf>

Oriental Bittersweet: <https://www.agriculture.nh.gov/publications-forms/documents/oriental-bittersweet.pdf>

Prohibited Invasive plant species in state:
