

NOTICE:

The City of Shafer has contracted Fahrner Asphalt Sealers to apply a Microsurface treatment to your street.

This application is currently scheduled to be done sometime on 5-16, 5-17, or the week of 5-20. You will receive an additional door knocker the day before your street will have the Microsurface applied.

We will also keep you updated on the City of Shafer website: www.shafermn.com

Go to the “City Street Improvements Projects” tab and click on “2019 Street Project.”

When your street is scheduled, we ask that you not park on the street and if you need access to your car during that day, park it on an adjacent street that will not be receiving the treatment.

If you have any questions, please call the Fahrner representative, Jason Pearson 651-346-9026

Thanks in advance
