RE: Traffic Letter for 165 North Market Street

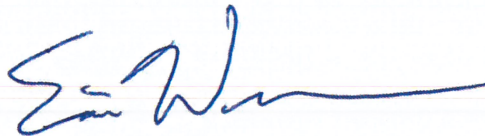

To Whom it May Concern:

The owners of the convenience store at 165 North Market Street are proposing to construct a new 4500 s.f. convenience store 100' south of the existing store. The existing store will remain and will be used for warehouse purposes. The existing fuel dispensers will also remain, and additional fuel dispensers are not proposed. The new convenience store, converted warehouse space, and existing fuel dispensers are not expected to generate any additional traffic compared to the existing traffic generated by the site.

The site is served by two existing accesses off of North Market Street. These existing access points will remain the primary accesses. A third access is proposed to the south of the new convenience store to handle truck deliveries.

If you have any questions or comments regarding this matter, please contact this office.

Sincerely,

RE: Drainage Letter for 165 North Market Street

To Whom it May Concern:

The owners of the convenience store at 165 North Market Street are proposing to construct a new 4500 s.f. convenience store 100' south of the existing store. Currently, the site generally slopes from the northwest to the southeast, toward North Market Street. When the new store is constructed, most of the stormwater runoff from this area will also flow east to North Market Street. The very southwest corner of the newly developed area will drain to the southwest, towards the existing carwash facility.

If you have any questions or comments regarding this matter, please contact this office.

Sincerely,

A handwritten signature in blue ink, appearing to read "Eric Wernsman", with a long horizontal flourish extending to the right.
