

Northfield Road Sidewalks (CUY-SR008-0.52 Pedestrian, PID No 120247)

Project Description

- The Village of Walton Hills, in coordination with the Ohio Department of Transportation proposes to construct 5' wide sidewalks along Northfield Road (SR 8) from the southern limit of the rail bridge over Norfolk Southern to Alexander Road. The project will install sidewalks along the west side of Northfield Road from the southern bridge abutment to Hannan Parkway where a pedestrian crossing with a Rectangular Rapid Flashing Beacon will be installed at the south side of the intersection to directly connect the industrial park employees to the bus stop across the street. Sidewalks will continue along both sides of Northfield Road to Alexander Road to provide connection to MGM Northfield Park. Minor curb repairs will be made.
- Vehicular traffic will be maintained as the project improvements will be constructed behind the curb. Daily flagging operations will provide a work zone and vehicular traffic movements around the zone.

Anticipated Project Schedule

- Design Complete/Approved – November 2025
- Project Award – April 2026
- Construction Start – June 2026
- Construction Complete – October 2026

Estimated Project Construction Cost

- \$1,058,700.00

Project Funding Sources

- Walton Hills
- Federal (Safety Funds)

Public Input

- Public input for the proposed project is welcome. Public comments will be received until July 1, 2024. Comments may be sent to:
