WHEREAS, this year, approximately 288,300 men will be diagnosed with prostate cancer in the United States alone – one man every 2 minutes, and roughly 34,700 will die this year from the disease, about 3,500 more than 2020 – which is one man every 15 minutes; and

Overall, African American men are 1.7 times more likely to be diagnosed with - and 2.1 times more likely to die from - prostate cancer than white men; and
