

## **Body Worn Camera Public Notice**

The West Deptford Police Department has been utilizing Body Worn Cameras (BWC's) in our daily law enforcement functions since 2016. We were previously in compliance with New Jersey Attorney General Directive 2015-1 which governed the use of BWC's, and we are also in compliance with the recently revised and updated Attorney General's Directive 2021-5.

As part of that directive we want to remind the public that all of our uniformed patrol officers, School Resource Officer, and Class III officers utilize BWC's.

The West Deptford Police Department currently utilizes the Axon "Body 3" camera; which is affixed to the front of an officer's outer vest carrier or outer most garment. These photographs depict the Body 3 camera and how it is worn on a uniformed patrol officer. If anyone should have any questions or concerns regarding our Body Worn Cameras, please contact Chief John Chambers at 856-853-4599 Ext. 157.
